Remarks of His Honor Mayor Rolph.

The Mayor: Gentlemen of the Board and my Fellow Citizens: Our Charter was amended and, therefore, our inauguration ceremonies are not as they were four years ago. The newly elected and reelected public officials took office yesterday at noon. I was here, called the meeting to order, there being no quorum I adjourned the meeting until this morning at 10 o'clock. It is customary, of course, for the Mayor to present to the Board what is known as the inaugural or quadrennial message, and I have one, but before beginning, may I thank you all who so tirelessly, unceasingly and really so devotedly supported me during the last campaign.

* * * * *

I have felt very much sorrow during the past few days because of this City's loss, and, as Dr. Clampett said on the last day of the year, a giant oak of this City had fallen. It was not only the friendship that he had for me, but it was the friendship that he had for this City, that prompts me this morning to mention the name of Gavin McNab. Before the meeting adjourns, and I know the meeting when adjourned will adjourn out of respect to the memory of Gavin McNab, I will have a message here that will be spread upon the minutes. But let me say to the members of the Board that during my entire period as Mayor of this City I have had the good fortune to have had as advisors three outstanding men of this community, and when I say I had them as advisors, they were advisors of the City, in whom you

have all had the greatest confidence. And many of the great problems that we have had before us in the past, their settlement and their adjustment I owe, and you owe, to Judge Curtis H. Lindley, Gavin McNab and Matt I. Sullivan. No man in public life ever had more stalwart advisors than I have had in those three men. When I was first elected Mayor George Van Smith, Fred Myrtle and Bob Hamilton said to me, "Mayor, if you can hold, during your entire term of office, Judge Curtis H. Lindley, Gavin McNab and Matt I. Sullivan, you will be a success and the City itself will reap the benefit that comes from the fertile brains of those three men." Judge Lindley has passed away, Gavin McNab has just passed away, and I still have, as a warm personal friend, Matt I Sullivan. I mention this before proceeding with my message because I know the Board and the City have lost, in Gavin McNab, an outstanding figure of the world and brains that could not be purchased and which were employed for the advancement of San Francisco. And many of the great outstanding mighty problems of this City were fostered, aided and helped by those three men, one of whom was Gavin McNab, whom I mention specially this morning. I once asked Gavin McNab if there was anything we could do to perpetuate his memory in this City. He said, "Why, no, Mayor." Well, I said, "Could not we name a street after you, could not we name a school after you, could not we name a park after you, could not we name a playground after you, could not we name a drive after you?" "Oh, no," he said, "I am a modest man, but one thing I am interested in, I am interested in a zoo, and I think this City ought to have a zoo." And that is where the idea came to me, which is in my message, that this City should have a zoo. I wish, if you feel as I do, that, for what he has done for this City, we think of something where his memory may be perpetuated, and I give you that thought this morning and express the hope that, when this Board does adjourn today, that it will adjourn out of respect to the memory of that sterling, upright, honorable character of ours, Gavin McNab.

* * * * *

Supervisor Colman: Before proceeding with the business, might I add a word to what you said in regard to the memory of Gavin McNab? San Francisco sustained a most severe loss, one from which it will be very difficult to recover. The life of the City will go on as usual, but the unique position of leadership that Gavin McNab held, will, in my opinion, never be filled. He was a very close friend of mine, also, and I found him, as you did, a constructive, sound advisor, whose one thought was for the advancement of San Francisco.

Inaugural Address.

Whereupon, his Honor the Mayor read the following and *ordered spread in the Journal*:

San Francisco, Cal.,
January 3, 1928.

Gentlemen of the Board of Supervisors and my Fellow Citizens:

In assuming office for my fifth consecutive four-year term as Mayor of the great City and County of San Francisco, I am the proudest man in America. I am proud of the fact that I have been privileged by the confidence of the people of this City to break all records for length of continuous service as Mayor of one of the larger cities of the United States.

This pride I have expressed on each of the occasions when I have presented my inaugural messages to your Honorable Board. Today I feel the honor more keenly than I have ever felt it before, for the distinction is one that has come to the Mayor of no other city in our country. During the next four years I shall endeavor to conduct myself as Mayor in such a manner as to merit, in the highest possible degree, the distinguished honor paid me on the eighth day of last November, when, after a particularly bitter political struggle, I was re-elected by the greatest majority ever given me—a majority of 31,024 votes.

In the preparation of the platform which I submitted to the voters I was particularly impressed by the vast number of public accomplishments that have taken place since I was honored by election as Mayor in 1912. Only a few of these accomplishments could be outlined in that platform, which otherwise would have assumed too bulky proportions, as would this, my quadrennial message to your Honorable Board.

Not for one moment do I presume to claim credit for this City's marvelous accomplishments. This credit belongs to all the branches of the administration of which I am the head; to the men and women who have worked unselfishly and unremittingly for San Francisco's upbuilding. I compliment the members of your Honorable Board who

have held this City's welfare ever uppermost in their minds, for the cooperation which they, as legislators, have accorded the executive and administrative branches of our municipal government. I express the hope that we will go forward to even greater accomplishments as a united governmental force, subordinating personal aggrandizement to the general good of our splendid citizenry.

It is deeply to be regretted that we have recently lost by death one of the ablest members of this Board, Supervisor Edwin G. Bath, and that we must witness the retirement from public life, I hope but temporarily, of those other two sterling Supervisors, William H. Harrelson and Lewis F. Byington, who would not submit their names to the voters for reelection. We shall miss the wise counsel of these able gentlemen, and to you, Supervisor Harrelson and Supervisor Byington and Supervisor Herz, I extend my sincere and affectionate good wishes for your future welfare, happiness and prosperity.

It is my pleasant privilege to welcome today into membership on this Board Supervisor Fred Suhr, who has previously served this City faithfully and well in the same capacity; Supervisor Dr. Joseph M. Toner, who long has been a staunch advocate of the upbuilding of this City and the Sunset District in particular; and Supervisor Frank J. McGovern, leader of civic affairs in the southern part of San Francisco, who has been honored by elevation to a broader and more useful field of public endeavor. I am sure that the new members of the Board of Supervisors will acquit themselves honorably and well of the task which the people have entrusted to them.

I congratulate and pay my respects to those Supervisors who have been reelected for another term: Supervisors John B. Badaracco, Jesse C. Colman, Andrew J. Gallagher, J. Emmet Hayden, Alfred Roncovieri and Warren Shannon.

Hetch Hetchy Water and Electric Energy.

For a number of years the people of San Francisco have been particularly concerned with the development of an adequate water supply for this rapidly growing City. Vigorous effort has been directed, with available funds, toward the completion of the great Hetch Hetchy project.

Since August 21, 1925, the Moccasin Creek Hydro-Electric plant has been in continuous and successful operation, without being out of commission as much as one hour, and as a result the taxpayers have received a net annual revenue of over $2,000,000, representing 26 cents on the tax levy.

In the Foothill Division active work has been prosecuted, to the extent that 14 out of the 16 miles of tunnels have been drilled between Moccasin Creek and the San Joaquin Valley, while the five shafts on the Mount Diablo Coast Range, south of Livermore and Pleasanton, are rapidly being sunk.

As I have stated repeatedly, a direct municipal distribution of Hetch Hetchy energy in the City is a logical and inevitable result of the Hetch Hetchy Water Supply System. A distributing system must be acquired as soon as possible by negotiation or condemnation. At the last election a proposition authorizing the issuance of $2,000,000 in bonds for the extension of the Hetch Hetchy distributing lines from their present terminus near Newark, Alameda County, into San Francisco was defeated. The City is committed to the policy of municipal retailing of the City's hydroelectric energy when it becomes possible so to do, and I trust that the people, in their wisdom, will give their consent when next the proposition is submitted to them.

However, in order that work may proceed without interruption on the development of Hetch Hetchy it is essential that the proposed additional bond issue of $24,000,000, to the support of which the Board of Supervisors pledged themselves, in 1924, be submitted to the voters with the least possible delay. I commend the outgoing Board upon its appreciation of the situation, and upon the steps already taken for the holding of a special election.

Purchase of Spring Valley.

Completion of the transbay pipe line from Irvington to Crystal Springs has removed immediate threats of water famine, with which we were confronted early in 1926, when we had only a 70-day supply of water on hand in the peninsular storage. The successful operation of the transbay pipe line, which delivers daily into Crystal Springs reservoir 34,000,000 gallons, has succeeded in raising the level of the water in this reservoir more than 27 feet despite the continuous draft made upon the supply by San Francisco and Peninsular consumers.

The building of the transbay line was, therefore, a very wise move on the part of the City. It cost a little less than $6,000,000, whereas the alternative route proposed by the Spring Valley Water Company on a high-level conduit would have cost about $12,000,000 and would not have been available as a unit of the future distributing system for Hetch Hetchy water.

The Spring Valley Water Company at present has storage reservoirs of a combined capacity of 125,000,000 gallons situated at various high levels inside the city limits. The City Engineer has prepared plans for the building of three large future reservoirs, to be located respectively at Amazon street, Glen Park and Ocean avenue, with a combined capacity of one billion gallons. All the property for the Amazon street reservoir has been acquired. The Ocean avenue site is held under option by the Spring Valley Water Company and about 80 per cent of the Glen Park property has been purchased. To forestall another disaster such as occurred in San Francisco in 1906 and in Santa Barbara in 1925, it is essential that these reservoirs be completed and kept filled with water so as to conserve public life and property in case of sudden, extraordinary need.

All of the natural reservoirs in San Mateo County and those reservoirs within the city limits must be brought together under the City's control through the purchase of the Spring Valley holdings, and at the proper moment I trust your Honorable Board will again submit to the voters for their approval a bond issue for this purpose. The income from the Spring Valley water system, from the date of purchase, will be more than sufficient to pay interest on the bonds and to redeem the bonds themseves as they fall due. Thus this system, like our Municipal Railways, will impose no burden upon the taxpayers.

Municipal Railways.

As I stated in my platform, prior to the recent election, "the acquisition and operation of the now privately-owned street railway lines and the consolidation of these lines with the Municipal Railway system are matters of transcendent importance."

During the past four years great development has taken place in our Municipal Railways. Up to June 30, 1927, there had been received from operation of the Municipal Railways the sum of $35,637,083.58, of which the operating expenses have been absorbed $25,789,767.20, leaving an excess of income over operating expenses of $9,847,316.38. No such a record of accomplishment has been made by any other railway or by any other city in the United States; so San Francisco takes leadership in the construction and operation of municipal railways.

From the net income of the Municipal Railways practically $2,000,000 of debt has been paid and $3,000,000 of current interest has been met. More than $3,500,000 has gone into extensions and betterments of the system. Today the system has 74.12 miles of single trackage and the total outstanding indebtedness is only $3,225,000, on property the reasonable value of which is at least $10,000,000. The taxpayers' profits, therefore, have amounted to some $6,775,000, which is a very creditable showing when one considers that our fare remains at 5 cents while the fare in Oakland today is 7 cents, in Portland 8 cents, in Seattle 8 1-3 cents and in Chicago 7 cents on surface lines and 10 cents on the elevated railways.

I am irrevocably committed to the continued maintenance of a 5-cent railway fare and half fare for school children in San Francisco. This City enjoys the proud distinction of being one of the two larges cities in the United States where a 5-cent fare prevails, and I will never consent to any plan which will raise the fare.

Since my last message to your Honorable Board, an extension has been made from St. Francis Circle into the Ocean View District. Temporarily this serves a local need, but ultimately it will be useful as the beginning of a trunk line for a future interurban extension into San Mateo County.

I am in hope that at an early date trackage will be laid through our magnificent new Duboce Tunnel so that those deserving people in the Sunset District will receive a transportation service requisite with their needs. It is to be regretted that two bond issues for this purpose, the last one of which was submitted at the election last November, did not receive the necessary two-thirds vote of our citizens, and I am in hope that next time such a bond issue is submitted it will be given an overwhelming majority.

The acquirement of the properties of the Market Street Railway Company remains as a problem of the first moment with our munici-

pal government. The municipal railway situation in San Francisco, as I stated in my platform, is not a question of public ownership, because that is settled by the Charter. It is merely a question of city operation. The issue that the voters must determine is whether it is more profitable to purchase the equipment in use by the Market Street Railway Company when its franchises expire, or to purchase new equipment. This is a matter which must be presented to the citizens in the form of a bond issue. Recently a large sum of money has been spent for expert advice on this point, and I hope that this Honorable Board will make full use of this expenditure in working out this vitally important problem.

Public Utilities Commission.

As I have already stated, not alone in this message but repeatedly heretofore, San Francisco is committed by the Charter to the public ownership of public utilities. For the efficient administration of all public utilities now owned or hereafter to be acquired by the City and County of San Francisco there should be created an independent commission charged with the sole duty of controlling and operating these ultilities.

With this object in view there should be submitted to the voters, at the general election to be held this year, a Charter amendment creating such a public utilities commission.

The Rate Cases.

Every property owner in San Francisco, and every user of the now privately-owned public utilities are affected by the rate cases which are being prosecuted before the legally constituted judiciary boards of the State of California. The Pacific Telephone and Telegraph Company unjustly, in my opinion, is seeking to increase the rates that are charged to its consumers, and the case is being vigorously defended by the City Attorney under direction of the Board of Supervisors.

I trust that there will be no relaxing of vigilance in these cases on the part of your Honorable Board and that the rights of the consumer will be rigidly conserved.

Civic Center Development.

At the last election the people confirmed, by their votes, a resolution of intention having to do with the offering to the United States government of a site at the Civic Center, the site of the old Hall of Records, for a new Federal Building. The City Attorney advises me that the next step is the adoption by the people of a Charter amendment, making formal tender of the property to the government.

Once the necessary legal steps have been taken Congress will be asked to make an appropriation for the building, which has been needed in San Francisco for a number of years. I hope your Honorable Board will submit the Charter amendment to the voters without unnecessary delay and that the voters will approve it, thus opening the way to an appropriation for a building which not only has been a prime necessity for a number of years but which will add materially to the beauty of the Civic Center group.

Meanwhile formal offer has been made by Postmaster Harry L. Todd to one of the committees of your Board for the establishment of a sub-postoffice in the City Hall for the transaction of all forms of business handled at the general postoffice. I have been assured by Registrar J. Harry Zemansky that room could be found in his department for this, and I urge your Honorable Board to give approval, without delay, in order that this much-needed service may be made available to the municipal offices and to the other governmental departments grouped about the Civic Center.

Plans for the War Memorial are going forward satisfactorily and with the bond money made available by the voters some months ago, together with the sum raised by public subscription, actual work can soon be started. With the completion of the War Memorial group we will have not only a beautiful opera house, but also a war museum and headquarters for the various societies of veterans.

As I have recommended on previous occasions, in messages such as this, there should be erected on the vacant lot opposite Marshall Square, in the Civic Center, a commodious building to house our courts. Space in the City Hall is at premium, and when the Public Utilities Commission is created many more rooms and offices will be necessary for strictly City use, so that eventually the various departments of the Superior Court, now in the City Hall, must be housed elsewhere. Pending the construction of a courthouse I suggest the building of an underground garage beneath the future court-

house site, a garage to be owned and operated by the municipality, and which will accommodate City cars, which now are cared for in garages in different parts of the City.

Health Building.

Too long has the City delayed the construction of a building adequate to the needs of the Department of Public Health. The present unsightly and unsanitary quarters on Mission street, into which the Health Department is crowded, should be condemned forthwith and provision should be made by bond issue or otherwise for the construction of a new building which will enclose the present Central Emergency Hospital. With the construction of the magnificent new Fox Theater on the old St. Nicholas Hotel site, at the gore of Market, Larkin and Hayes, the Civic Center neighborhood is rapidly being developed, and we should complete the municipal group as soon as possible. One of the noblest traits in human character is the willingness to care for the sick and those less fortunate than ourselves, and every facility should be placed at the disposal of the Health Department to permit it to function properly and efficiently with a sufficiency of funds.

For the favorable consideration of your Honorable Board I likewise suggest the installation of a radio broadcasting station on our Municipal Auditorium. From this station could be broadcasted the splendid music and entertainments which almost daily and nightly take place in this great building. Matters of public moment could be broadcasted to the citizens of San Francisco and the surrounding communities, while the station would be kept forever free of the filthy politics which were heard from certain of our private broadcasting stations during the recent campaign.

The unsightly facade of the Pantages Theater Building must be beautified without further delay. Two years ago, in my message to your Honorable Board, I urged the completion of the Civic Center development along the lines laid out by the City's Board of Consulting Architects. The necessary appropriations for this work have not been forthcoming, and the result has been justifiable public criticism of the City's dilatory tactics. With the proper funds so that the City can do its part of the work, the theater building can be made to conform to the general scheme of Civic Center architecture, Fulton street can be opened straight through to Market and the unpaved portion of the plaza can be paved.

I recommend that the plans be broadened to include the widening of Grove street and the creation thereon of set-back lines to conform to the lines of the block in front of the Auditorium.

Streets and Boulevards.

A splendid program of highway construction and betterment was approved by the voters at the elections in June and November of last year, providing additional much-needed trunk line arteries out of San Francisco and facilitating the movement of crosstown traffic.

First comes the Bay Shore highway, starting in the vicinity of Army street and Potrero avenue and running parallel to the San Bruno road to the San Mateo County line, a roadway 125 feet wide and 3.01 miles long. The State Highway Commission is building northerly from South San Francisco to meet the City's road, and it is our hope that the highway will be finished throughout and in service before the end of 1929.

The new Alemany boulevard, 100 feet wide and 4.8 miles long, will follow the line of the old Ocean Shore Railway and will provide a main artery from the southerly Mission business section in a southwesterly direction to the county line.

The new Junipero Serra boulevard, following the present route from St. Francis Gate southward to the county line, 125 feet wide and 1.8 miles long, will be completed about the same time as the Alemany boulevard.

Nineteenth avenue will be extended southerly from Sloat boulevard, paralleling the Municipal Railway tracks to the Junipero Serra boulevard at Ocean View. It will be 1.25 miles long. with a width of 128 feet.

By their approval of the boulevard bond issue, the voters have given authority for a future great parked highway, to be known as Sunset boulevard, between Thirty-fifth and Thirty-seventh avenues, and stretching from Golden Gate Park to Lake Merced. The City will acquire a tier of blocks included in this area so as to create an artery 2.1 miles long and 240 feet in width. The Park Commission will be asked to park this in the same manner as is Funston avenue between Golden Gate Park and the Presidio.

Whether the park crossing to connect these two highways should

be made on the level, or whether a subway across the park should be built, will be decided when the proper time comes and when full consideration shall have been given the matter.

The concrete Esplanade, stretching from Sutro Heights southerly along the Ocean Beach, has been a decided engineering success. It will now be extended practically half a mile or so to cover all the frontage of Golden Gate Park. From its terminus it is planned to build over the high-level road next to the ocean an avenue 120 feet in width to Sloat boulevard.

Van Ness avenue will also be extended another block, from Mission and Twelfth streets to Howard street, and the Bernal Cut, involving an excavation 4200 feet long and 117 feet in width, will be completed during the present year.

All of these highway projects involve an expense of about $11,000,000. It speaks well for the progressive spirit of the people of San Francisco that the bond issues should have carried by a vote of practically four to one. We have 130,000 automobiles in San Francisco at present. With the construction of these new traffic outlets it is confidently expected that within five years the number of automobiles owned and operated here will have been doubled.

As Mayor I have in the past advocated other highway construction which San Francisco greatly needs. As soon as practicable, steps should be taken to extend the Golden Gate Park Panhandle easterly 4600 feet from its present terminus at Baker street to a junction with Market street near Duboce avenue, the necessary land for which will cost approximately $3,000,000. A tier of lots should be acquired on each side of Capp street, from the Van Ness avenue extension to Bernal Heights, a distance of 8600 feet, which would provide a great Mission traffic artery 305 feet wide and capable of being parked in the center. The Bernal Heights boulevard must also be carried through to completion without unnecessary delay, and I respectfully recommend it, with the others I have mentioned, to the favorable action of your Honorable Board.

Traffic Problem.

I very strongly oppose the diversion of San Francisco's share of the Good Roads Fund to the repaving of existing streets. The proper use of this fund is in the construction of new main highways. It could be very properly used in the treatment of the Market street improvements, which have been advocated by me for several years, and which one day will become not only desirable but vitally necessary. The new traffic law has aided greatly in solving the problem, but subway pedestrian crossings at the principal intersections are highly desirable for the protection of life and limb and sooner or later a subway under Market street, to handle the street railways, will be needed to maintain a speedy connection between downtown and the outlying residential districts.

In connection with traffic congestion, I recommend to your Honorable Board the setting of a fixed policy regarding garages and parking stations, more of which are constantly needed as the number of automobiles increase. It is my belief that the future will bring an ever-increasing number of garages, many stories in height, with parking stations giving way to valuable revenue-producing buildings on lots now occupied by these stations. It is necessary to encourage capital to invest, and this cannot be done if the builder of a costly garage, on which large sums in taxes are paid to the City, is constantly to be menaced by the possibility of his business prospects being ruined by the granting of a permit for a parking station a few feet away from his establishment.

Public Schools.

A comprehensive program of public school construction is actively going forward, and by the close of this year we will have made great strides toward solving the ever-present problem of adequately housing our school children. I trust that in the preparation of the 1928-29 budget your Honorable Board will deal generously with the Board of Education, toward the end that we may catch up with our building program and that our youth may have good, permanent school buildings and wholesome surroundings for their education. The Department of Education estimates that $1,500,000 a year is necessary if its building activities are to take care of the situation.

Bay Bridge.

There has recently been introduced in Congress, in both the Senate and the House, a bill which would give the City and County of San Francisco the right to build a transbay bridge, with its western terminus at Rincon Hill, the spot selected some months ago by our special consulting engineers as the

most feasible. At the last election the voters declared for a publicly-owned bridge and we should give our active support to the passage by Congress of the bill given Federal approval to the project.

Parks and Plagrounds.

San Francisco is a city justly famed for its parks and playgrounds, and we must continue to provide more as our population grows. Our nineteen playgrounds, comprising 61 acres, are even now taxed to the utmost to care for our children, while many districts have no playgrounds at all. May I urge that heed be given the entreaties of our citizens who seek playgrounds in their respective districts, and that as quickly as wisdom directs and finances permit, these outdoor recreation spots be provided.

The beautiful new McLaren Park, in the southerly section of the City, should house a zoo of a size and character worthy of San Francisco. No feature of publicly-owned entertainment is more popular than a zoo, and in this respect our City is woefully lacking in comparison to most of the other large cities of the country. There should be provided $2,000,000 for the acquirement of additional land for the John McLaren Park, and provision should then be made to establish a zoo that will reflect credit upon our people and will provide them with both education and entertainment. I strongly recommend that the offer of the Parkside Realty Company to deed to the City the property known as Pine Lake, in the Parkside District, be accepted, and that the lake be turned over to the Park Commission to be beautified and made into another recreation center for our people.

New County Jail.

For many years the people of the fast growing Ingleside District have complained of the presence there of the old County Jail, formerly known as the Industrial School, then as the House of Correction. At the time the jail was built, seventy years or more ago, there were no homes in the neighborhood, but today it has become one of the finest residential districts of our City and the institution has become both an eyesore and a bar to the rise of property values. Moreover, it is antiquated and in a ramshackle condition, and wholly unfit for the housing of prisoners.

The City and County Treasurer has in his keeping a fund of $113,800, which may be used only for the building of a new County Jail. Of this amount $50,000 was appropriated in the 1925-26 budget and the remainder came from the sale of the old Broadway Jail property.

Where the new jail should be erected is a matter for serious study and debate. I have a number of suggestions which I am ready to submit, and I strongly recommend that your Honorable Board at once appoint a committee of your members to confer with the Mayor and the Sheriff and to bring back a definite plan for approval.

The County Jail property comprises some 100 acres, with a few acres more contained in Balboa Park. This property should be transformed, after the razing of the old jail buildings, into a great public park and playground, to serve the present and future needs of the district surrounding it.

Municipal Airport.

Further development of our Municipal Airport is a matter worthy of our unceasing effort. Some 150 acres of land, about three miles south of South San Francisco and east of the Bay Shore highway, has been leased by the City from the Mills Estate. Hangars and other equipment have been built during the past eight months at an expense of $200,000 and the field has been in constant use. Here is where Colonel Lindbergh landed in his celebrated flight across the continent and here is whence he departed on his journey to the south. The site is far removed from hills and is free from local air currents. Lindbergh declared it to be one of the finest fields in the United States. There is every reason to hope that it will become one of the most popular airports in the country, and we should leave nothing undone to enhance its popularity and increase its use.

Street Lighting.

Although much has been accomplished in recent years in modernizing our system of street lighting, there still remains a vast work to be done. The antiquated gas lamps which disfigure many of our streets should be replaced without further delay by electric lamps, and in all districts where the underground conduit system has been installed ornamental electroliers should be liberally distributed, just as has been done recently on Geary street.

All overhead wires should be put underground. The public service corporations should be obliged to do this work with all possible speed, under legislation of the Board of Supervisors, so that not only will

our streets be made more sightly, but also safer for vehicular and pedestrian traffic.

Civil Service.

Due attention should be paid to the needs of the Civil Service Commission, and appropriations should be made in each annual budget of sufficient size to enable the Commission to increase its activities, and to hold examinations for the creation of eligible lists for all positions defined by the Charter as coming under Civil Service control.

During my administration of sixteen years as Mayor, nearly every department of the City and County government has been brought under civil service. Examinations for the few remaining positions, which have not been held because of lack of funds, should now be made possible.

Public Gifts.

This City has been particularly fortunate in receiving, from its public-spirited citizens, notable gifts of public institutions. The M. H. deYoung Memorial Museum, the California Academy of Sciences and the Steinhart Aquarium in Golden Gate Park, the Spreckels California Palace of the Legion of Honor in Lincoln Park, and Huntington Park, to mention but a few, are inspirations to all our people.

During the past year Mr. Carl Larsen donated to the City for park uses a wonderful piece of property of some six acres on Sunset Heights, and also two blocks of land along Nineteenth and Twentieth avenues from Ulloa to Wawona streets. I heartily commend Mr. Larsen and our other wealthy citizens who have made donations to the City, and I sincerely hope that their actions will be emulated by many more who are able and willing, if the suggestion were made to them, to offer similar gifts.

Greater San Francisco.

San Francisco is a prosperous city, and I predict an increasing prosperity for our City by the Golden Gate as each year passes. In the factory growth, in bank clearings and clearing house returns and in exports and imports, there is a continuous upward trend which makes us worthy of the title "Metropolis of the Pacific Coast." Building permits in 1927 numbered 9170 and totaled $47,000,000 in value, a substantial rise in number and value over 1926. Security transactions on the San Francisco Stock Exchange in 1927 went to more than $672,000,000, an increase of nearly $317,000,000 over the previous year. In every field were similar satisfying evidences of growth.

Our future lies in our own hands. The time is not far distant when our population will be numbered in millions, when a consolidation will have been effected between San Francisco and the peninsula communities, under the borough plan, and when "Greater San Francisco" will become a reality.

We should all bend our efforts toward the consummation of the plan, recently worked out, of reclaiming many hundreds of acres of industrial lands along our Bay front, extending from Islais Creek clear to Redwood City. Sites suitable for industries, which San Francisco has heretofore sadly lacked, will attract the industries themselves, and once the industries have been established here, a great growth in population will be the inevitable result.

Let us go forward, shoulder to shoulder, in building a bigger and better city. Let us maintain the spark that glowed in the breasts of our pioneers, who took San Francisco, a region of bleak hills and long reaches of sand, and transformed it into the great metroplis that it is today. Let us subordinate differences of opinion and personal ambition to the one great aim of building — building substantially, building pridefully, building optimistically, building for the happiness and welfare of those generations which are to tread the pathways where now we direct our steps.

Our present regard will be pride of accomplishment, our future reward the verdict of our children and our children's children: "They kept the faith and builded well. Their achievements do them honor."

Sincerely,

JAMES ROLPH, JR.,

Mayor of the City and County of San Francisco.

Communication from Mayor on Death of Gavin McNab.

San Francisco, Cal.,
January 3, 1928.

Hon. Board of Supervisors, City Hall, San Francisco, California.

Gentlemen:

In accordance with my extemporaneous remarks before your Honorable Board today upon the sad death of that great civic leader, the Honorable Gavin McNab, I wish to make formal request that you do honor to Mr. McNab's memory in some one of the ways which I have suggested to you.

In the passing of Gavin McNab

San Francisco has lost one of its most brilliant intellects and one of the most public-spirited of its citizens. Ever since he was a young man Mr. McNab has taken an active part in public affairs and in matters having to do with the upbuilding of San Francisco. Particularly have I, since I was first honored with election as Mayor, been accorded the great privilege of consulting with him upon problems which from time to time have arisen to perplex your Honorable Board and myself. The value of his always ready advice is inestimable, and the people of this City owe to him a debt which can never be repaid.

Not only in matters of particular concern to San Francisco, but in affairs of the state and of the nation Gavin McNab has played a prominent though unassuming part. Time after time he had declined to accept honors which were bestowed upon him. His reward for his efforts was contained in personal satisfaction over the accomplishment of something of public good.

I am sure you will agree with me that the memory of the Honorable Gavin McNab should live always in the minds and hearts of the people of San Francisco. Therefore, I deem it most fitting that your Honorable Board name one of our parks or playgrounds or schools or streets with the name of Gavin McNab, so that the generations which are to follow will be aware of the worth of this eminent citizen who has been taken from us.

Sincerely,
JAMES ROLPH, JR.,
Mayor.

Read and filed and ordered spread in the Journal.

The Mayor: When the resolution I referred to comes in and the Board adopts it, the resolution itself, with your remarks and my remarks, and any other remarks made by the Board today regarding Gavin McNab, be sent to Mrs. McNab. Any objection? So ordered.

Now, we have three new members here this morning, and, of course, the inauguration ceremonies will not be complete if we did not give this gathering an opportunity to take a look at them and congratulate them and see how they make their maiden speech at the Board of Supervisors. The Board of Supervisors consists of eighteen orators. And I hope that the three new members will likewise show by their brains and their ability that they, too, when called upon to deliver an oration, won't be found in the second place. Dr. Toner, you are such a jolly, fine, good fellow that we are proud to have you here, and, gentlemen of the Board, I present you, and my fellow citizens, I present to you, Dr. James M. Toner, whom you have elected to serve you during the next four years. Dr. Toner. (Applause.)

Supervisor Toner's Address.

Your Honor the Mayor, my associates on the Board of Supervisors and citizens of San Francisco: My first act as a Supervisor is to thank the voters of this City for the honor and distinction they have conferred upon me in electing me a member of this legislative body. I also wish to thank my friends for the loyal, enthusiastic support, both moral and financial, they gave me during the past spirited campaign. (Flowers). I wish to thank you, Mr. Mayor, and you, gentlemen of the Board, for the courtesy you have always extended my associates and myself during the past two years when we appeared before you, representing the Sunset-Parkside District, on such matters as boulevards, Duboce Tunnel, Esplanade and all projects which had to do with the development of that sparsely settled, but rapidly growing part of San Francisco. I wish to thank two committees that we came in close contact with, the Public Utilities, of which Mr. Supervisor Shannon was chairman, and the Street Committee, of which Mr. Supervisor Marks was chairman.

I wish to thank the City Engineer's office, especially Mr. Healy, for the cooperation he gave us in our development plans; also, Mr. O'Toole and his assistant, Mr. Dion Holm, who gave our attorney, Mr. John Riordan, splendid cooperation in working out a practical assessment and payment plan for the Duboce Tunnel assessment area. You, the members of the press, representing the large dailies, and also the community papers, I wish to thank you for the publicity you gave our Sunset programs, and also for the courtesy you have shown me personally during the late campaign.

You, my colleagues on the Board, I enter your midst with the friendliest feelings toward you all, and with a high personal regard of your integrity. I know you all, some of you gentlemen I have known for as many as twenty years, and I wish to assure you that it will be my earnest endeavor to cooperate with you in every way pos-

sible to make our administration a successful one.

Mr. Mayor, I wish to pledge you my support and my loyalty. By so doing I will not only be living up to my oath of office and my personal inclinations, but I will be carrying out the mandate of ninety thousand citizens who voted to retain and return you to office to fill out twenty years of continuous constructive city building. I consider that I am one of your aides, sent here by the voters of San Francisco to help you and assist you in every forward, constructive movement, which has for its object a bigger, better and more progressive San Francisco.

As a member of this Board I will have three major endeavors:

First, to do all in my power to help San Francisco in its entirety. I am for the advancement of all our public utilities. I will cast my vote for all municipal projects. If we spend the City's money in a businesslike manner, fostering and developing municipal projects, private capital will follow our lead, and we will get industries, manufacturing plants, and with these come employment, good wages, increased population and a large payroll, which always means abundant prosperity.

Number two, I feel myself to be the personal representative of the Sunset-Parkside District, the only undeveloped area in San Francisco, and I know that you, my colleagues, will, in the future, as you have in the past, do all in your power to help develop this district. If we are to keep San Franciscans in San Francisco and cater to our increasing population this territory must be developed. We need parks, schools, playgrounds, transportation, boulevards, completion of the Esplanade, which is now progressing rapidly, and all civic improvements which has to do with making up an ideal home district which this will be. I also wish to thank you Mr. Supervisor Havenner for the heroic efforts you are making to bring about a speedy completion of the Judah street car line, also for your action in making up the deficit for the Board of Health.

The third matter that will receive much of my study and attention is the subject of health. I wish to thank the Committee on Committees for making me chairman of Public Health Committee. I feel that with an experience of thirty years practicing medicine in San Francisco that I can be of service in fostering better health conditions and thereby preventing disease and epidemics. I will cooperate with the Health Officer, Dr. Massler, and by the way he is a very efficient executive, and with the Board of Health, and with all organizations that have to do with sanitation and health betterment. As a member of the County Medical Society I feel myself to be the personal representative of the medical men of San Francisco on this Board, and it will be my constant endeavor to merit their approval.

Public Health work, that is, our present understanding and conception of it, is a development of recent times. There must be a closer union between the Board of Supervisors and the Health authorities. The stock question asked of any community should not be altogether what of the schools, what the bank clearance, but what are death, the births and the morbidity statistics. People do not seem to understand that good health is the greatest thing in the world. The wealth of a nation is its health. The general public has not yet learned that good health is a commodity that can be bought and paid for like any other commodity. If you will spend the money and do the work you can have your community practically free from seventy per cent of all diseases. This is a startling statement to make, but medical men know it is true. There is enough scientific medical knowledge obtainable today, which, if properly applied and directed, would, in a short period of years, stamp out the infections and communicable diseases and render most of the others impotent.

The health authorities cannot do successful work without aid of the general public and the lawmakers of the community. The health authorities must depend upon the municipal authorities for the power and money to carry on their work.

When there is a saving policy the health budget is always the one to be cut. The City authorities will spend much money to protect homes from being burglarized or citizens from being held up or robbed on the street. It is right and just that they should do so, but it so grudgingly gives to protect the children who are daily in danger of being garroted or maimed and crippled by the murderous diseases of childhood—and remember, much of the sequale of diseases of childhood follow into adult life.

I shall endeavor to secure from the Finance Committee all the

money that is necessary to give comfort, happiness and restoration of health to those who need it.

I wish to take this occasion to say a word relative to Mr. Gavin McNab, who passed from our midst last week. In his passing San Francisco, the West, and the entire country has lost one of her outstanding statesmen. I feel that Mr. McNab has done much toward the upbuilding of San Francisco. His time, energy and money were always at the disposal of San Franciscans for the betterment of our City. A few of his epigrams and witticisms appeared in the San Francisco dailies the day after his death. I will take the liberty of reading you one of them. I think it very apropos to this occasion:

"Los Angeles has municipal union, San Francisco is perpetually divided. Los Angeles honors the men who do things. San Francisco honors those who prevent someone from doing something."

I hope that San Francisco takes heed of those prophetic words, and that a spirit of tolerance and cooperation will be brought about.

For a proper development of our City we must have the cooperation of the Mayor, the Board of Supervisors, the different departments of our city government, the Downtown Associations, the Merchants Exchange, the health authorities and all civic organizations. Then, and not till then, will we properly develop and progress.

I am happy to be with you today to join in this unity celebration. I hope that the dove of peace which hovers o'er us today will continue with us for the next year. Let us be as the name of this celebration signifies, a united body of eighteen resolute representatives of San Francisco, under the leadership of his Honor the Mayor, working for the best interest of our City.

I wish you all a happy and prosperous New Year.

I know that when we assemble here a year from today, the people of San Francisco, whose servants we are, and who have entrusted into our care the legislation of this, our beloved city, will say to us: "Well done, my good and faithful servants, you have lived up to your oath of office, you have done good and big things for a big city, you are faithful and intelligent legislators, we commend you; go forth and do likewise for the next year." Let us so conduct ourselves.

I thank you.

The Mayor: I thank you, Doctor, for those very kind, able and cheering words that you have just expressed. They were food for thought, and I really think that the speech itself and the way you delivered it, and in the proper tone of voice, made an impression upon every Supervisor, as it did upon me, and I hope that we will get together and do big things for a big city. I congratulate you. (Applause.)

I now take the liberty of presenting to you, as a member of the Board of Supervisors, fellow citizens and fellow members of the Board, our really reelected Supervisor, Fred Suhr.

Supervisor Suhr: His Honor Mayor Rolph and my fellow members: I listened with a great deal of interest to the Mayor when he said there were eighteen orators here, but I rather disagree with him on the start. I believe there are eighteen members of the Board, but not eighteen orators. I, for one, have never been an orator. I believe that actions speak louder than words. And I want to say to you, Mr. Mayor, that I have listened with a great deal of interest to your inaugural address, and I, for one, want to pledge to you my hearty support, the same as I have in the past, and that I will be there 100 per cent behind you in all these projects. (Applause.) It seems good to be back, and a great deal of satisfaction to be back here in the Board after a lapse of six years, and I hope that many of the larger projects which you have mentioned will be carried through to their completion. In some cases I was a member of the Board when they were initiated. I also take this opportunity, if it is in order, to publicly thank the many friends who have seen fit to honor me by placing me back on the Board. I thank you. (Applause.)

The Mayor: I thank you, Supervisor Suhr. It is a pleasure, your smiling countenance and your able and lofty brain back here with us.

We have another welcomed member of this Board, one whom I personally welcome, one whom we all welcome, and, my fellow citizens, I wish to present to you the new Supervisor whom you have honored by placing him here as a member of this legislative body of our City. I present Supervisor Frank McGovern. (Applause.)

Supervisor McGovern: Mr. Mayor, members of the Board of Supervisors, and particularly the citizens of San Francisco who have honored me by placing me in such responsible position, let me say this: that

in the conduct of my affairs as a Supervisor, I would like the guiding of my vote and the guiding of my conduct to be determined on the same principles that have guided many of the things that are worth while in the past twenty years of my life, and that is on the basis of right and wrong. I have always believed in being independent in choosing the principles that will guide me in things that are of moment. I shall so try to conduct myself as a member of the Board of Supervisors.

I have heard your Honor mention some things in a particular district in which I am more than ordinarily interested, the large southern district, and particularly the removal of the jail. And I was glad to hear you so state. We have in that district, or we have grouped together, many of our people who believe that our wants are not known. Now, if in the conduct of my affairs as a Supervisor I may be over-zealous or may seem to take more of an interest in that particular district, remember that I shall always try to take into consideration the interest of all parts of the City and use the knowledge of things that I have gained for civic betterment. I shall always look at it in this light: that, when a group of people come from a district, they know the wants of that district better than the members of the Board of Supervisors. (Applause.) I shall let that weigh on one hand, and let weigh on the other those who have to pay the bill, the taxpayers, and in my vote and counsel I shall try to see them get the best that can be had. To your Honor I want to say this: In the main, the declaration that you have given of a policy to be followed the next four years is the declaration of the majority of the people of San Francisco. They are the thoughts that have governed me in my politics, and I will say to you, also, that, in furtherance of them, I shall be behind you all the way and wish you all the success in it, feeling that the next four years ought to be the most successful years that you have had in your administration as a Mayor of San Francisco. Thank you. (Applause.)

The Mayor: I thank you, Supervisor McGovern, and I am very much heartened in the words that you have just expressed, build and build and build for a greater city.

* * * * *

Supervisor Havenner: Mr. Mayor, The Board has done me the honor of appointing me chairman of the Finance Committee. I have had experience enough on that Committee already to know that every day is going to be kicker's day for me in the future, but I want to say to you, your Honor, that I was very much impressed with your message today, and that I am heartily in sympathy with many of the constructive suggestions that you made there, and I feel that I can voice the attitude and the opinion of most of the members of this Board when I say to you that, so far as our activities are concerned, we hope, in the two years that are ahead of us, to be able to work with the single purpose and the single-hearted aim of trying to accomplish something constructive and progressive for San Francisco, and we hope, Mr. Mayor, to have the privilege of working in accord with you on that program. (Applause.)

Address by Supervisor Alfred Roncoveri.

To be placed in a position of trust by the people is one of the highest honors that can be conferred upon any citizen. I therefore esteem it a proud privilege to take my seat for a second term as a member of the Board of Supervisors of this City and County.

San Francisco has a distinctive character that is akin to a living thing—something with a soul. It is made up of the thoughts, dreams and visions of those to whose lives it gives something. All things considered, our future never was brighter than now, for San Francisco has caught a glimpse of her future greatness.

Great problems which will affect the people of San Francisco for weal or woe, according as they are solved, lie before us.

Never has a Board of Supervisors faced problems of such tremendous importance and magnitude, and their correct solution challenges the best thought and experience of the most enlightened of our City.

To solve these problems aright we need the heaven-born qualities of intelligence and moral courage, and above all, devotion to lofty ideals. Advice on all matters we will receive in plenty, but in the final analysis the responsibility for success or failure must of necessity rest upon the members of this Board. One thing I would suggest above all others, let us have less talk and more action, linked with sanity.

What we shall do, and not what we shall say, is the only thing that will count with the people. When inclined to talk upon any subject, let us remember the old Hindu proverb, "Wisdom is made up of ten parts—nine parts silence and one part brevity." Let us have good team-work, with unity of purpose and with courtesy and tolerance for each other's views. Let the City's business be carried on with dispatch and decorum—two D's worth remembering.

Let us not forget that behind us stand the 700,000 people of our great City, in all their might and majesty. They have signally honored us by selecting us to be members of the Board of Directors of the largest and richest corporation in California, and they expect, nay, they demand, that we shall do for them in good faith and honor all that the directors of any first-class corporation would do to advance the interests of their stockholders.

Let us then be forward-looking and exert the greatest care in all our undertakings in order to protect the interests of the people with the same shrewd finesse that the directors of a private corporation exercises on behalf of their stockholders.

I believe that our City's problems should be discussed in a frank and dignified manner. For my part, I shall cooperate and work harmoniously with my associates, but should it be necessary at any time for me to disagree, I shall disagree, agreeably. I assure you that I shall not be a majority member, nor a minority member of this Board, from choice—my pledges to the people and my conscience will be my only guides.

It is our duty as members of this Board once and for all to establish on a firm-set foundation the spirit of fair play and courteous conduct in all of our official relations one to the other, to be doers and not talkers, to be savers and not wasters of time, in order to expedite business, and thereby obtain public approval and confidence.

For my part, I shall keep the faith and give unstintingly of my strength in support of any constructive measure by whomsoever fathered, and in return I shall expect like consideration for any measure vital to San Francisco's interests which I may advocate.

When we took our oath of office we entered into the high obligation to serve the interests of all the people, and much will rightfully be expected of us. So I renew my pledge to work with whole heart and mind with you, Mr. Mayor, and with you my colleagues, to the end that the great problems that confront San Francisco at this time may be solved satisfactorily and without delay.

May God give us the light to see the right in coming to our decisions for the best interests of the people.

And now, as we are about to undertake our duties, let us day by day keep our eyes to the front, and upon Him:

"From out whose hands
The centuries roll like grains of sand,
Lord God of Hosts, be with us yet,
Lest we forget. lest we forget."

Former Supervisor Byington, being called upon by his Honor the Mayor, addressed the Board briefly, declaring that he had the privilege of knowing and working with Curtis Lindley, Gavin McNab and Matt I. Sullivan and had reason to appreciate their great worth as public-spirited, outstanding citizens of San Francisco. He thanked the members of the Board and the clerks for their cooperation during his incumbency and was highly complimented by the Mayor on his ability as a legislator and public-spirited citizen.

Former Supervisor James I. Herz also addressed the Board, thanking the Mayor for appointing him Supervisor, as well as the Board of Supervisors for its cooperation and spoke in high praise of the wonderful construction message of the Mayor.

Supervisor Colman spoke of former Supervisor Harrelson, who was unable to be present, in the terms of the highest praise as a public-spirited man of sterling character and ability, whose departure from the Board of Supervisors would be a distinct loss.

Supervisor McSheehy declared that it would be his policy during the ensuing year to insist on the enforcement of Rule 40, respecting the granting of the privilege of the floor.

Mayor Rolph declared that it would be his policy to establish a "Kickers' Night," whereat citizens might present the complaints on any subject of municipal interest.

Chief of Police Dan O'Brien, being called upon, wished all a happy and prosperous New Year.

Telegrams from Cardinal Hayes of New York and Eamon De Valera, Irish Republican leader, congratulating Mayor Rolph and San Francisco on his reelection were also read to the Board.

Citizens Participate.

Daniel Tobin, "Mayor of Parkside," Mrs. White of Sunset, a representative of David Scannell Club, Mrs. Edna Calhan, Miss V. Fowler of the Marina, S. Markowitz of Richmond, Mrs. Hogan of the 100% Woman's Club, Mrs. J. Shelly of the South of Market Girls, T. Reardon of South of Market Boys, E. J. Kenny, president of Geary Street Merchants Association and numerous others representative of various sections of the City were heard in congratulations and good wishes for the success of the coming administration.

The meeting room was jammed with spectators and even standing-room was at a premium. When the Mayor referred to his good wife, who was on the rostrum with him, she received the greatest ovation given any of those who took part. The Mayor called on a large number of the citizens present and each one responded in a happy and appropriate vein. Especially was this true of the women who had taken part in the recent campaign in the Mayor's behalf.

6. A motion, in Committee of the Whole, to rise and report the question, shall be decided without debate.

7. The Clerk shall have clips, upon which shall be kept all bills, ordinances, resolutions and reports to be acted upon by the Board, except those not reported upon by a committee.

8. No bill, ordinance or resolution shall be considered by the Board unless it has been introduced by a member of the Board or by a Committee of the Board, and the bill, ordinance or resolution must be read by the Clerk in open meet-

ing before being referred to Committee. At the time of introduction the presiding officer shall first indicate to what Committee a bill, ordinance or resolution ought to be referred, and it shall be so referred unless, upon majority vote without devate, the Board shall order it referred to some other Committee.

Action by the Board shall not be taken upon any bill, ordinance or resolution until it has been referred to and acted upon by a Committee of the Board.

12. When a motion has been made and carried or lost, it shall be in order for any member voting with the prevailing side to give notice that he will move for reconsideration thereof. Such notice shall be entered in the Journal and placed upon the Calendar at the succeeding meeting.

A member may change his vote before the result is announced in order to give such notice of reconsideration. The vote upon such motion to reconsider shall not be taken before the next regular meeting of the Board. No question shall be reconsidered more than once and notice of reconsideration shall apply only to the main question. It shall require a majority vote to carry any motion to reconsider the vote by which any bill, ordinance or resolution has been passed or defeated. A Supervisor, after a notice to reconsider is given, may, on the reconsideration thereof, present the main question in his argument thereon, and the same may be debated by the Board, provided that the subject matter is debatable.

On a motion for the previous question prior to a vote being taken by the Board, a call of the Board shall be in order.

28. Every member present when a question is put shall vote for or against it unless disqualified by the Charter. No member shall be permitted to vote upon a question unless present when his name is called or before the vote is announced. A Roll Call shall not be interrupted for debate or personal privilege, but a member may file, in writing, an explanation of his vote.

If the point of order be sustained by the Chair the member shall not be allowed to proceed, but if it be not sustained then he shall be permitted to go on. Every such decision from the Chair shall be subject to an appeal to the Board, but no discussion of a question of order shall be allowed, unless an appeal be taken from the decision of the Chair. The question on appeal shall be: "Shall the decision of the Chair stand as the decision of the Board?"

30. After the Board has acted, the names of those who voted for and those who voted against the question shall be entered upon the Journal, not only in cases required by law, but when any member may require it, and on all bills, ordinances and resolutions on final passage the ayes and nays shall be recorded.

31. All appointments of officers and employees shall be made by a majority of the members of the Board. The Clerk shall assign the assistant clerks and chauffeur to their several duties, and shall immediately transmit to the Mayor all resolutions and ordinances which, under the law, require executive approval.

32. No member shall leave the Board during its session without permission from the Board.

33. All Committees shall be appointed by the Board unless otherwise ordered by the Board. Committees shall report on any subject referred to them by the Board and their recommendations thereon. *Unless otherwise ordered, a Committee shall report upon all subjects referred to it within thirty days thereafter.* It shall be the right of any member of a Committee to move a roll call (in Commit-

tee), on any pending motion, and the Chairman or Acting Chairman of said Committee shall, with or without debate, order the roll call. In Committees of three members or less a motion by a member thereof shall not require a second.

34. The Clerk shall perpare and cause to be printed and placed on the desks of the members on days of meeting, at least 30 minutes before such a meeting, a calendar of matters to be presented to the Board at said meeting. Every petition or other written instrument intended to be presented to the Board must be delivered to the Clerk not later than 12 o'clock noon on Saturday, or on the day preceding the meeting; upon the request of the President or of any member its contents shall be read in full.

35. All petitions, protests and communications of a routine character shall be referred by the Clerk to the proper Committee.

36. Ten members shall constitute a quorum to transact business, and no bill, ordinance, resolution or amendment thereto shall pass without the concurrence of at least that number of members, but a smaller number may adjourn from day to day.

37. Except when otherwise provided by these rules, the Charter or law, a majority vote of the members present shall be necessary for the adoption of any motion.

38. No smoking shall be permitted in the chambers of the Supervisors during the sessions of the Board.

39. The Clerk shall keep a record of all requests and instructions directed by the Board of Supervisors to any officer or board of the City and County and the action thereon of such officer or board. The record of such request and instructions, until acted upon by such officer or board, shall be read by the Clerk at each regular meeting of the Board of Supervisors.

40. The privilege of the floor to persons other than members of the Board shall be permitted only by suspension of the rule, and in the case of legislative matters pending before the Board this privilege shall be limited to ten minutes to each side to proponents and opponents of the measure. This time may only be extended by further suspension of the rule.

41. In debate a member must confine himself to the question before the Board.

42. On any questions or points of order not embraced in these rules the Board shall be governed by the rules contained in Roberts' Rules of Order.

43. No member of the Board of Supervisors, chairman of a Committee, or Committee of said Board, shall employ or engage the services of any person, or authorize or incur any charge, debt or liability against the City and County unless authority therefor shall have been first given by the Board of Supervisors by resolution or ordinance, except as otherwise provided by law.

Ninety days' time from and after January 4, 1928, within which to complete the improvement of the crossing of Forty-third avenue and Kirkham street and Forty-third avenue and Lawton street.

These extensions of time are granted for the reason that the work is well under way.

Clerk.

Disapproved—San Francisco, December 23, 1927.

JAMES ROLPH, JR.,

The reasons given for granting the extensions of time are no reasons at all. The work should have been finished on time, as conditions were perfect. This contractor is notoriously slow in finishing his contracts and keeps continuously seeking extensions.

Mayor.

Report of Supervisor Shannon on Hetch Hetchy Roads and Airport Mail Service.

The following statement, too late for last meeting, is inserted here for record purposes:

Supervisor Shannon: At this time I would like to be permitted to make a report of my visit with Mr. Edwards, the Assistant Secretary of the Interior. While in Washington I desired to take up with him the matter of the request

of the Department for improvement of the roads into Hetch Hetchy. Mrs. Kahn and Mr. Welch and myself visited Mr. Edwards to take up the matter with him in connection with the communication sent by the Department, and the answer sent by the City Attorney and a brief sent by the City Attorney's office. Mr. Edwards informed us that an answer was ready but it could not be released for ten days, therefore he could not discuss the matter with us. In consultation this morning with Mr. Eckart I find that the communication has not yet been sent, although that is over ten days ago, so I imagine it will be forthcoming. We had a general discussion about Hetch Hetchy conditions, and I find that the Department is very anxious to have us give them surface roads suitable for automobile traffic, and I showed him that the road from Hetch Hetchy to Lake Eleanor was as per the demand of the Raker Act, but he smiled and said that he thought it could be put in better shape than it was when he traveled over it. He adverted to the fact that they had been very lenient in permitting us to build but the trail on the north side of the lake when they could have demanded a road. We showed Mr. Edwards that there was little or no traffic up at that end of the lake, and we did not consider their action very magnanimous, and we had a general discussion, but, until this communication arrives, we will not be in a position to find out just what the attitude of the Department is. He did say, however, that they were making some concessions in this report that will be forthcoming soon as the result of the report sent by the City Attorney.

Mrs. Kahn, Mr. Welch and myself visited Postmaster-General New regarding the matter of the airport, as per the telegram received by me from you, Mr. Mayor, and also from the Down Town Association. And Mr. New was rather arbitrary. He was very set in the matter. He said that Mills Field was wet, soggy and fog-bound, that of 40 attempted flights 11 had been unsuccessful and they had to go to Concord. We told the Postmaster that it was on the other side of our fog-belt, that before using that site we had the advice of the Army fliers, not men that were discharged or men that were retired but men in the actual service. He said that their Department was entirely separate and distinct from the Army, and that he did not care anything about their opinion, that he had the opinion of the Boeing people that it was a poor field. When we asked him if he felt that the opinion of the man in the street was better than an arm of the Government he got just a little bit hostile and referred us to Mr. Glover, his assistant. Mr. Glover told us that he had been in consultation with Mr. New that very morning, and had told him of the conditions and that they were not going to take a chance on human life on a field of that kind. I wired the result of that interview immediately to your office, Mr. Mayor, and I judge that it has been taken up, but I was very skeptical about the statement that of 40 attempted flights 11 had been unsuccessful. I was very anxious to hear from Mr. Kent in regard to that matter, and surely, Mr. Mayor and members of the Board, if there is any statement that I have made, as made to me by the Postmaster-General that is not correct, I would like to know about it before I return to Washington, so that Mr. Hayden, Congressman Welch and Mrs. Kahn and myself can interview him again, because, personally, I felt that his attitude was just a little bit arbitrary. But his main thought, as represented to him, was a natural one, and that was that he wanted to save human life, he did not want to take any chance with the fliers landing in a field where he felt that their life was in jeopardy.

Supervisor Kent: I would say that we have forwarded from this Airport Committee to the Congressional representatives a vast amount of documentary evidence refuting any of these charges or bits of information that the Postmaster-General has received from this private corporation, and in every instance we can positively refute all their accusations and charges. We have a most complete case, which shows that the Municipal Airport is one of the finest in the United States. As to the weather conditions, as to its physical requirements, as to the operations by these people, over a twenty-day period, we anticipated that they went in there under prejudice, and we kept printed copies, which we recorded in triplicate each day of their operations, of departures and arrivals, as to time they departed, time they arrived, the pilot in charge, the names of the passengers that may have traveled from Chicago here, or passengers who had departed, and the weather conditions at the particular time. We have all those and they positively refute any of those accusations that

out of 40 attempts 11 were frustrated.

Supervisor Shannon: Out of 40 attempts 11 were what?

Supervisor Kent: They claim that some 11 were compelled to be abandoned, that they had to use other fields.

Supervisor Shannon: Is there any truth in that?

Supervisor Kent: Not a particle of truth in that. There was one foggy day, if you remember, that involved the whole coast from Vancouver down to San Diego and as far inland as Sacramento and Stockton. That was the day that the ship went on the rocks here at Lands End. And that was a general condition where a fog existed in every field in this Bay region, such as Concord and Bay Farm Island, Crissy and Mills fields. However, Mills Field, by a condition of air currents down there released from this fog tie-up sooner than any of the other fields, and the plane would have been allowed to proceed on its way in faster time than the taking and trucking of the mail, which they figure they have to do on those days where fields are tied up with fog. The aeroplane was able to depart from Mills Field and proceed to Reno faster than the trucking conditions and, in fact, we have also proven and made an analysis that if any of that haze condition would exist in this Bay region area that we can positively release an aeroplane at Mills Field quicker than in trucking from Bay Farm Island or from Crissy in or from any place they want to truck or to Concord. We can beat their time by waiting and being patient because the air or the fog condition, if it exists at all, is released at Mills Field quicker than at any other place.

Supervisor Shannon: Will you give us that data to take with us?

Supervisor Kent: I forwarded that to the Congressional representatives, they have that.

Supervisor Shannon: Will you give us duplicate copies?

Supervisor Kent: Yes, I have one more here. We had it in triplicate, one filed with the Chamber of Commerce, one in our own files and one at the field. You can rest assured that you can battle and you have got safe ground to battle on. There is no weak point in the Municipal Airport, not one. In none of its departments has it failed at any time. And since then we have demonstrated by the other fliers that are on the field and the tenants there that at all times and in any weather the field holds up better than any in existence, and we have pointed out, we have all that evidence in Washington now, and unless they are prejudiced and will not listen to that, of course, they cannot help but rescind the present order. They would have to be governed by the evidence that is in front of them. And it clearly shows Mills Field to be the most advantageous field in this territory. I sent meteorological data back there that took the weather bureau about four days to complete an analysis of each piece of data, such as an analysis on the wind condition, on the atmosphere, on observations on air currents or such as are termed "air pockets" that some of them were inclined to propaganda, and we have been able to refute all those things by absolute tests.

Supervisor Shannon: Are you in a position to refute the statement that of 40 attempted landings 11 were unsuccessful and they had to go to Concord?

Supervisor Kent: Absolutely.

Supervisor Shannon: Well, that is the big point. I think if we can show that to the Postmaster-General it will show that he has been imposed upon by the Boeing people.

Supervisor Schmidt: What did Colonel Lindbergh say about it?

Supervisor Kent: He compliments all the fields but we have had actual demonstration with every type of aeroplane and under every weather condition to show that the field has no detriment to it.

Supervisor Byington: I would like to know what answer could be made if they are asked, at the time of the flight to Honolulu, why none of the fliers would take off from our field, I am merely saying now, what answer will be made to that question?

Supervisor Kent: The only thing that you can say at this time you have nothing much to work on except the mental condition of the pilot at the time of the flight.

Supervisor Hayden: You weren't quite ready either.

Supervisor Kent: It has been proven that those pilots were not well equipped. While I do not want to depreciate their flying abilities yet, at the same time, they were under such a tension and likewise they were not wholly prepared.

Supervisor Byington: But what difference would that make, that is,

in taking off from a field? Now, the Mayor went down there for the purpose, as I recall, of seeing a flier off, and not one of the fliers took off from our field, that is, the Mills Field, at the time of the Honolulu flight. They were going to at first, I think they said two or three would go, but as it eventuated there was not a single flier that would start from that field.

Supervisor Kent: As I was going to say before you interrupted there, to complete, why it was the mental condition of the particular pilot at the time. He was going to lift off the ground an abnormal load, an endurance test, and each pilot figured that he would have to, if possible, go in a straight line without endeavoring to negotiate a banking or turning, and on the prevailing wind at Mills Field at that time, coming down from the north or northwest, they would have to take off into that wind, and they found an 800-foot rise in the San Bruno Hills. Now, for an endurance test of that kind, an abnormal proposition, why, they preferred the Bay Farm Island take-off because they have a 7000-foot runway there, and when they took off the ground they were merely over water, and they had no altitude to surmount, and as they flew down the Bay at no time were they over a hundred or 150 feet in altitude. In fact, they passed out the Golden Gate, with the exception of the Jack Frost plane, who took altitude and came over the City of San Francisco. However, Captain Giles has since substantiated the fact that a flier's skill enters into it and his mental hazard or his mental condition can prevail if he has confidence in his ship and in himself. Giles took off from Mills Field and only used 1750 feet of the runway, on one occasion used 1750 feet and 2000 feet on another occasion, with the maximum load. He had only gone about a mile and a half when he negotiated a turn and came back, all of which showed the superior skill of this British aviator. And he also substantiated the fastness of the ground or the runway at Mills Field as against any other field. He did not have to use its full length. He also proved that the currents down on the peninsula are of a calm variety. He experienced no difficulty there. He substantiated a great deal and offset any of that previous opinion that may have been in some minds. Then too, for another instance, as the recent chronicles "Spirit of California" endurance test showed that this tri-motored plane lifted 15,000 pounds off of the runway in a 2500 to 3000 foot distance. They did not have to use the entire mile runway. That proved the fastness of the field again, the fact that they could get up steam. Now, they were a little impatient on one occasion and they went over to another field and they got on that particular runway and were stuck in the mud 20 inches deep for 36 hours. And they came back to Mills Field and again took off and stayed in the air some 36 hours. That was their nearly successful flight. So, by patience and confidence we have been able to obviate all these various adverse opinions against us and as we go along we will still demonstrate a little more that we are perhaps slow but sure in our endeavor.

Report of Streets Committee on Sand-drifts in Sunset District.

The following was read by the Clerk and ordered *filed*:

January 9, 1928.

To the Honorable, the Board of Supervisors of the City and County of San Francisco.

Gentlemen:

Your Committee on Streets and Commercial Development has had before it the problem of attempting to cope with the sand which drifts outside the property line on to the public streets in the Sunset area, and we had before us at our last regular meeting representatives of the improvement clubs of that district in the persons of Mrs. Thomas R. Best and Mr. Norton C. Wells.

This menace has afflicted the people of the district for many years, and the Committee decided to consider favorably the recommendation to the Finance Committee that the sum of $5,000 be placed in the next budget to establish a revolving fund under the terms of Ordinance No. 4324 (New Series) which, according to our City Engineer, Mr. Clyde Healey, and to other persons familiar with the difficulties surrounding this situation, will accomplish the purpose of clearing the streets of sand and come near to solving the problem.

Respectfully submitted,

COMMITTEE ON STREETS AND COMMERCIAL DEVELOPMENT.

ANDREW J. GALLAGHER, Chairman.

J. B. BADARACCO, Member.

ALFRED RONCOVIERI, Member.

Resolution No. 28196 (New Series).

Resolved, That Peter McHugh is hereby granted the following extensions of time to complete street work, viz.:

Ninety days' time from and after January 4, 1928, within which to complete the improvement of Forty-fourth avenue between Kirkham and Lawton streets where not already improved.

Ninety days' time from and after January 4, 1928, within which to complete the improvement of the crossing of Forty-third avenue and Kirkham street and Forty-third avenue and Lawton street.

These extensions of time are granted for the reason that the work is well under way.

Adopted—Board of Supervisors, San Francisco, December 12, 1927.

Ayes—Supervisors Byington, Colman, Deasy, Gallagher, Harrelson, Havenner, Hayden, Herz, Kent, Marks, Roncovieri, Schmidt, Stanton, Todd.

J. S. DUNNIGAN.
Clerk.

Disapproved—San Francisco, December 23, 1927.

JAMES ROLPH, JR.,
Mayor.

The reasons given for granting the extensions of time are no reasons at all. The work should have been finished on time, as conditions were perfect. This contractor is notoriously slow in finishing his contracts and keeps continuously seeking extensions.

JAMES ROLPH, JR.,
Mayor.

Whereas, during the period of over a quarter of a century which has elapsed since its adoption, the City of San Francisco has more than doubled in population, and new civic functions, projects and enterprises have come into being, not existent at the time of the drafting of the Charter; and

Whereas, the provisions of the Charter have frequently been subjected to judicial interpretation and efforts have been made to meet new problems by the process of amendment rather than of thoroughgoing revision; and

ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND MOTIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

Telegram.

Supervisor McSheehy declared that the following telegram had been sent to Washington:

San Francisco, January, 9, 1928.

Senator Hiram W. Johnson, Congressman Richard J. Welch, House of Representatives, Washington, D. C.

City and County of San Francisco, after exhaustive study extending over a period of years, and employment of best engineering advice obtainable, has, through its elected representatives, the Board of Supervisors, recommended the construction of a bridge across the central portion of San Francisco Bay, from Rincon Hill in San Francisco to a point near the south mole of the San Antonio Estuary in Alameda County. Our engineering advice is unanimously to the effect that a bridge which will serve the best interests of the great population around San Francisco Bay and of all Northern California must extend across the central portion of the Bay, and that any bridge which is remotely removed from this area will not solved the acute traffic problem with which we are confronted. We are advised that a bill has been introduced in Congress to provide for the construction of a bridge across the Bay at Hunter's Point. We desire respectfully to call your attention to the fact that several applications for a franchise to construct a bridge over approximately the same route have been pending before this Board of Supervisors for many months, and that no such franchise has been granted because our engineers have advised us that such a bridge will not meet the vital needs of the Bay community. We desire to be recorded as unalterably opposed to the construction of a bridge at this location until after a bridge has been constructed which will accommodate the great volume of commuter traffic which now flows daily back and forth across San Francisco Bay by means of ferry boats. Please file this formal objection, duly adopted by the Board of Supervisors of the City and County of San Francisco, with

the Senate and House of Representatives.

(Signed)
BOARD OF SUPERVISORS OF THE CITY AND COUNTY OF SAN FRANCISCO,
By J. S. DUNNIGAN,
Clerk.

Report of Supervisor James B. McSheehy, Chairman of Bridge Committee, Sent on to Washington on December 5, 1927, to Present Bridge Bill to Senator Johnson and Congressman Welch.

January 16, 1928.

To the Honorable, the Board of Supervisors of the City and County of San Francisco.

Gentlemen:

As chairman of the Bridge Committee, I was authorized by Resolution No. 28135 (New Series), December 5, 1927, to present to the Congress of the United States a bill granting consent to the City and County of San Francisco, State of California, its successors and assigns, to construct, maintain and operate a bridge across the Bay of San Francisco, State of California, from Rincon Hill to a point near the South Mole of the San Antonio Estuary, in the County of Alameda, in said State. On December 14, 1927, I presented this bill to Senator Hiram W. Johnson and to Congressman Richard J. Welch, and I am pleased to report that both of these gentlemen presented the same to the Senate and to the House of Representatives with a statement of the following facts:

1. The bridge is necessary for the safety and convenience of the public.

2. The bridge is indispensable to the economic growth of Northern California.

In amplification of the above, there was submitted the following argument:

"San Francisco Bay is overcrowded with ferries. Shipping in San Francisco Bay is second in point of volume only to that of the harbor of New York. Over 11,000 vessels passed into and out of the harbor last year. Eighteen lines of ferries, making an aggregate of over 850 crossings daily, convey 50,000 people over the bay twice a day across the main lines of commercial shipping. In 1926 ferry passengers of interurban type between San Francisco and the east bay cities numbered 43,550,678; main line passenger trips numbered 1,676,518. This creates a navigation menace. The menace is great and is constantly increasing. It is enhanced by frequent and sometimes very heavy fogs. The time required to cross the bay by ferry, 18 minutes, is unduly long. This bay ferry traffic constitutes a distinct detriment to business and a grave hardship upon business people. Automobile traffic, now so important to the growth of City and State, is impeded. In 1926 over 2,500,000 automobiles were transported by ferry between Oakland and San Francisco. Congestion of automobiles in highway approaches to and from the City is frequent and often acute. San Francisco and adjacent cities and towns of the peninsula suffer from lack of direct and unbroken road connections with highways across the bay.

"The bridge as planned by a Board of Engineers, the personnel of which was recommended by the presidents of four universities of the State of California, represents months of intensive study. It will be of double deck and will accommodate foot and vehicular travel, as well as suburban trains, to which may be diverted traffic from all main lines of passenger transportation. It will be 12,000 feet long, will have 20 spans, two of these with a horizontal clearance of 1250 feet each. It will have vertical clearance of 150 feet over 2½ miles of deep water of the bay. This vertical clearance is 15 feet greater than the four bridges over the East river at New York and the Philadelphia-Camden bridge over the Delaware river. There will be one movable span, which is expected will be used only on rare occasions.

"Shipping men are agreed that the bridge will not interfere with shipping. Indeed, they approve and urge the bridge on the ground that it will be an aid to shipping. The bridge will not interfere with the proposed United States naval base at Alameda. The City of Alameda, by proper resolution, has endorsed the proposed bridge and is joining in the application for a permit to construct the bridge at the location specified. There will be no interference with Oakland harbor or with present plans for the development of that harbor. On the San Francisco side of the bay most of the wharves and by far the largest lie north of the bridge and are not affected thereby. The Board of Engineers are emphatic in saying in their report that there will be 'no interference with shipping in any part of the bay.'

"San Francisco Bay, with its area of 463 square miles, is one of the

largest natural harbors on the globe; the area of deep water available for anchorage is sufficient to accommmodate the navies of the world. Clearances provided by the proposed bridge are more than sufficient to pass the largest ships in the United States Navy. The line of the bridge crosses over the northern portion of the United States fleet anchorage as that anchorage is depicted on paper; this can be obviated by moving the anchorage about 1000 yards southward, where ample deep water anchorage exists.

"Within the last two years twenty-six applications for a franchise to construct a bridge across the bay have been made to the Board of Supervisors of San Francisco. Perhaps every possible route and every possible type of bridge have been suggested. Voluminous maps, drawings, engineering digests and blue prints have been filed. Discussion of and arguments on these applications progressed before the Board of Supervisors for over six months. Many noteworthy engineers prepared or contributed to the plans and discussions. The entire subject matter, therefore, has been inquired into most exhaustively. Much money has been spent in research. San Francisco itself has spent some $50,000 of municipal monies in an endeavor to determine the very best type of bridge and the very best location. It is the sincere belief of City officials that the bridge as now planned between Rincon Hill and Alameda Mole represents the very best of engineering advice and legal counsel.

"This San Francisco transbay bridge enterprise is neither provincial in its conception nor local in its significance. San Francisco is the financial center of the great Pacific Coast. Her bank clearings are greater than those of any city west of Chicago. Nearly two millions of people are concentrated within 50 miles of her borders. With her destiny is bound up vitally the destiny of many, if not most, of the populous communities of the West. Her success is their success, her prosperity is their prosperity. The transbay bridge will promote the growth and serve the convenience of them all. Indeed, it is the expectation and the hope that it will be of service and advantage to the entire country. The Chief Executive of this nation in one of his first and most important utterances since the opening of the present Congress stressed the fact that: 'It cannot be too often said that this is all one country. Agriculture, industry, transportation and finance should realize,' he stated, 'that they are interdependent and that each may prosper by extending its services to the others.' San Francisco wants to extend its services to others in this matter of transportation. She wants to make straight and safe the path that leads to her door. She is not fearful of the financial burden that she may have to bear or the construction problems that she may have to solve. She is serene in her confidence that she can meet all these. She wants to be brought into closer contact with her sister cities and towns of the nation; she wants these cities and towns to be brought into closer contact with her. She aspires to make contribution to the convenience, safety and prosperity of the people of City, State and nation. Her aspirations have been fostered and encouraged by the entire State of California; they have received particular encouragement from the people of Northern California. The cities and towns of the entire San Francisco Bay region are in complete accord with her bridge plan and route. From no civic body, from no political subdivision, from no commercial organization has come any word of dissent. San Francisco has the hearty and undivided cooperation of her sister cities. All she now asks is Congressional permission as defined in the accompanying bill. Granted this she will proceed with all possible expedition to construct across San Francisco Bay a bridge which will serve millions of people of the present generation and anticipate the needs of added millions of people of generations to come.

"Very sincerely yours,

"JAMES B. McSHEEHY."

Senator Johnson and Congressman Welch were so impressed with this statement of facts that they had the same incorporated in the records, which is very unusual, as it takes the unanimous consent of both houses to incorporate in any record a statement of any kind pertaining to the subject matter set forth in any bill. This rule is rigidly enforced, and I feel that we were very fortunate in having it suspended so that our statement could be incorporated with the bill. It will allow us to have copies printed and sent personally to all of the Senators and Congressmen. In the Congressional Record of December 15, 1927, on page 685, you will find the printed statement as set forth in this report. The bill

was read twice and referred to the Committee on Commerce in the Senate and in the House it was referred to the Committee on Interstate and Foreign Commerce, and is known as Bill S. 1762.

On December 22, 1927, Senator Johnson sent the following letter, to-wit:

December 22, 1927.

"My dear Senator Dale:

"On the 15th of December I introduced in the Senate a bill (S. 1762) providing for the construction of a bridge across San Francisco Bay. This proposed structure is one of the largest in the United States, and, viewed from the standpoint of the people of San Francisco, a matter of the greatest importance. Permission to construct this bridge has been denied by the Navy Department, and San Francisco, and the people of San Francisco, and the territory adjacent to the Bay of San Francisco, are appealing to Congress for the requisite federal permission. As I stated to the Commerce Committee at its first meeting, my hope is that the bill will be presented to the appropriate department and appropriate government engineers with a request that a full and detailed report upon the construction of a bridge across San Francisco Bay shall be made to the committee by the engineers and the Navy Department, and that thereafter San Francisco may have the opportunity to present evidence in support of the measure and in answer to any objections which may be stated by the departments. I would request, therefore, that the bill be transmitted by your Committee on Bridges, which was appointed by Chairman Jones at our first meeting, to the Navy Department, with the request that as full and detailed report be made thereon and thereafter the matter may be taken up in such fashion as you may deem appropriate.

"Sincerely yours,

"HIRAM W. JOHNSON."

This letter was received by Senator Dale, and the purport of the same was transmitted to the Agricultural and War Departments. On January 4, 1928, Senator W. L. Jones, chairman of the Committee on Commerce, received the following letter, to-wit:

"January 4, 1928.

"Honorable W. L. Jones, Chairman, Committee on Commerce, United States Senate.

"Dear Senator:

"Receipt is acknowledged of your letter of December 20, transmitting a copy of a bill (S. 1762) with the request that the committee be furnished with such suggestions touching its merits and the propriety of its passage as the department might deem appropriate.

"This bill would authorize the City and County of San Francisco, their successors and assigns, to construct, maintain and operate a bridge and approaches thereto across the Bay of San Francisco, from Rincon Hill in said City and County to a point near the south mole of San Antonio Estuary in the County of Alameda, State of California. The location of the proposed bridge is more specifically set out in Section 2 of the bill. Under the provisions of Sections 3, 4 and 5 the City and County of San Francisco would have the right to assign the authority to construct the bridge to a bridge and highway district organized under the laws of California, or to a governmental agency heretofore or hereafter created by the United States or the State of California, or to a person, firm or private corporation furnishing satisfactory guaranty that the construction of the bridge would be diligently prosecuted, and that after completion it would be maintained and operated in accordance with law. If any such assignment should be made to a person, firm or private corporation, the said City and County of San Francisco, or a bridge and highway district, or a governmental agency heretofore or hereafter created by the United States or the State of California, with authority to construct, maintain and operate a bridge, would have the right to purchase the bridge under conditions which the City and County of San Francisco may impose at the time of making the assignment. Before any such assignment shall be made, however, the proposition so to do shall be submitted to the voters of the City and County of San Francisco at a general or special election, and shall only be authorized if a majority of the voters voting upon the proposition shall favor the same.

"The bill contains no provision for regulation of the tolls or for controlling the financing and promotion charges in case assignment should be made to a person, firm or private corporation. It is suggested that a provision be inserted limiting the financing and promotion costs in case of such assignment to not exceed ten per cent of the sum of the cost of constructing the bridge and its approaches and the cost of acquiring such real

estate as may be necessary for the proper location, construction, operation and maintenance of the bridge. It is suggested also that the bill be amended to limit the encumbrances that may be placed against the bridge in case of assignment to a person, firm or private corporation, so that the total of all such encumbrances shall not exceed the sum of the cost of constructing the bridge and its approaches, and the cost of acquiring such necessary real estate, plus not to exceed ten per cent for financing and promotion costs.

"Aside from the foregoing, the bill is without objection so far as this department is concerned.

"Sincerely,

"Secretary's File Room,
"R. W. DUNLAP,
"Acting Secretary."

Senator Johnson transmitted copies of Senator Jones' letter from the Agricultural Department to Mayor James Rolph, Jr., City Attorney O'Toole and Judge Matt I. Sullivan, stating that to date, January 7, 1928, he had not received any reply from the War Department, and just as soon as he did receive a reply he would communicate with us. As chairman of the Bridge Committee, I will call a meeting and counsel with Mayor Rolph, City Attorney O'Toole and Judge Matt I. Sullivan just as soon as I receive a report from the War Department as to their objections to the bill. If the bill has to be amended, I will ask the sanction of this Board for said amendment.

On January 6, 1928, Congressman Morin introduced Bill No. H. R. 8712, giving permission to Frank E. Webb to erect a bridge across the Bay of San Francisco at or near the extension of Oakdale avenue, near Shag Rock, at or near Hunters Point, San Francisco County, on the north, and Visitacion Point, San Mateo County, on the south, to a point south of Park street, City of Alameda, County of Alameda, California. Through the Clerk of this Board a telegram was sent to Senator Johnson and Congressman Welch on January 9 protesting against the granting of this permit to Frank E. Webb. On January 7, 1928, I received the following telegram from Congressman Richard J. Welch: "Bill introduced by Representative Morin, chairman of Committee on Military Affairs, on behalf of Colonel Webb, for a bridge at Hunters Point, is to my mind an idle act. As you know there is no objection to such a bridge. This action will in no way change our plan of campaign. Doran forwarding printed copy of Morin bill and other data air mail today. Richard J. Welch, M. C." I was more than pleased to see that it would in no way change our plan in the presentation of our bill.

On leaving San Francisco I took with me Mr. John Doran, a young San Francisco attorney, whom I appointed secretary of the Bridge Committee. He is doing good work there, and through the courtesy of Congressman Welch he has been allowed the privilege of using a desk in his office.

With Mr. Doran on the job in Washington, and with the cooperation we are receiving from our Senators and Congressmen, I feel that a permit will be granted to San Francisco to erect a bridge across the San Francisco Bay.

Respectfully,

JAS. B. McSHEEHY,
Supervisor.

Senate Bill 1762.

In the Senate of the United States, December 15, 1927, Mr. Johnson introduced the following bill, which was read twice and referred to the Committee on Commerce.

A bill granting consent to the City and County of San Francisco, State of California, its successors and assigns, to construct, maintain and operate a bridge across the Bay of San Francisco from Rincon Hill to a point near the South Mole of San Antonio Estuary, in the County of Alameda, in said State.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, that the consent of Congress is hereby granted to the City and County of San Francisco, its successors and assigns, to construct, maintain and operate a bridge across the Bay of San Francisco, and approaches thereto, from Rincon Hill in the City and County of San Francisco to a point near the South Mole of San Antonio Estuary in the County of Alameda, in said State.

Section 2. The bridge shall be placed on the location described as bridge location numbered 1 in the report and plans of Robert Ridgway, Arthur N. Talbot and John D. Galloway, Board of Engineers, filed in the office of the Board of Public Works of the City and County of San Francisco on the 5th day of May, 1927, and a certified copy of which report is on file in the office of the Secretary of War of the United States; provided, that the bridge location may be varied

therefrom to any line within a zone of two thousand feet wide, the northerly limits of which shall be five hundred feet northerly from the said location numbered 1 and parallel thereto, and the southerly limits of which shall be one thousand five hundred feet southerly from said location numbered 1 and parallel thereto, depending upon the nature and location of adequate foundations, to be determined by soundings.

Section 3. The City and County of San Francisco may assign the right hereby granted to a bridge and highway district organized under the laws of the State of California, or to a governmental agency heretofore or hereafter created by the United States or the State of California, or to a person, firm or private corporation who will give satisfactory guaranty that the work of constructing said bridge shall be diligently prosecuted, and that after completion, said bridge shall be maintained and operated in accordance with law.

Section 4. In the event that the assignment of the right hereby granted to a person, firm or private corporation, and the construction of said bridge and appurtenances thereto by said assignee or successor in interest of the City and County of San Francisco, the said City and County of San Francisco, or a bridge and highway district or a governmental agency heretofore or hereafter created by the United States or the State of California, with authority to construct, maintain or operate a bridge, shall have the right to purchase the same under conditions that the City and County of San Francisco may impose at the time of making any assignment of the right herein granted to construct and maintain said bridge.

Section 5. Before an assignment by the City and County of San Francisco of the right hereby granted, the proposition to make such assignment shall be submitted to the voters of the City and County of San Francisco at a general election, or a special election called for the purpose. If a majority of the voters voting upon the proposition shall favor the assignment, such assignment shall be accordingly made, subject to the provisions of this act.

Section 6. Before commencing the construction of said bridge the builder thereof shall submit to the Secretary of War for his approval plans and specifications for its construction, together with such drawings of the proposed construction and such map of the proposed location as may be required for a full understanding of the subject. The height, length of spans, and location of said bridge shall be approved by the Secretary of War and Chief of Engineers if found to be in accordance with the report and plan of said Board of Engineers, hereinbefore referred to, subject to any reasonable modification thereof as may be found necessary after the nature of the foundations has been determined by borings.

Section 7. Upon the completion of said bridge and appurtenances thereto, in accordance with said report and plan of said Board of Engineers, the same shall be deemed and treated as a lawfully constructed bridge, notwithstanding the provisions of that certain Act of Congress, approved March 23, 1906, Chapter 1130, entitled "An Act to regulate the construction of bridges over navigable waters." The consent hereby given shall be a conclusive determination by Congress that said bridge, constructed in accordance with the report and plan of said Board of Engineers, is not an obstruction to the free navigation of the waters of the Bay of San Francisco.

Section 8. The work of constructing said bridge shall be commenced within three years from date of the passage of this act, and shall be completed within seven years from date of commencement; provided, however, that the Secretary of War may, in his discretion, extend the time for the commencement or completion of said work.

Remarks of Supervisor McSheehy Relative to Tentative Plans for the War Memorial and Opera House.

Supervisor McSheehy: May I say this to the members, I have two matters that I would like to take up. May I say to the members of the Board and to the citizens present that I have here the plans of the Opera House, also the plans of the War Memorial, one on a large scale and one on a small scale. Some eight or nine months ago the City of San Francisco bonded itself for four million dollars, and you know through private subscriptions something like $1,800,000 or thereabouts was raised for the purpose of erecting and purchasing the land and so forth for these two buildings. The land has been purchased for practically in and around $800,000, and today we have practically five million dollars to erect these two buildings. Now, the War Memorial trustees have gone on—I happen to be a member of that body—and they have prepared these plans. They are in skelton form. The trustees had a meeting last Tuesday, and I was requested to present this matter to you, the Board of Supervisors, and these plans showing the progress that they are making. There has been no real criticism, but there has been, in a slight way, some criticism as to the marking of time in reference to the erection of these two buildings. We all know the necessity of the two buildings, we know what they mean to San Francisco, and I am more than pleased today to be able to present these plans. I am going to leave them here with the Clerk, they can be examined by any member of the Board, they are only in a skeleton form, remember, they are not permanent plans, but they are plans that have gone as far as the trustees have up to date. I invite every member of the Board to examine them, I invite any citizen in San Francisco to examine them, I invite the press to examine them, and if there is any criticism, criticize them as you see fit. But I particularly want to report the progress that we are making, and I feel that we are making great progress today in reference to the proper presentation of these plans to the Board. I have great hopes that within the next couple of months contracts will be let for the excavation and perhaps the foundations—and now remember I said, within a couple of months, and I say two months, not several—and during that time there are some legal difficulties that must be ironed out between this Board and the Board of Trustees, and so I hope that, inside of sixty days, those legal difficulties will be ironed out and that the work will be started to the satisfaction of all. I am going to leave the plans with the Clerk and I invite all to examine them.

Supervisor Havenner: Mr. Supervisor, are these plans now approved by the representatives of the veterans' organizations and the trustees of the War Memorial?

Supervisor McSheehy: No, Mr. Supervisor, they are not approved, they are simply in skeleton form, in a form that they can be altered in any shape or manner. They are

not approved by the trustees and they are not approved by the veterans' organizations, they are a basis to start something with.

Supervisor Todd: The preliminary sketch?

Supervisor McSheehy: Preliminary sketches.

Supervisor Toner: Who drew them up?

Supervisor McSheehy: They have been drawn up entirely under the jurisdiction of the trustees under the supervision of Bakewell & Brown, the architects who drew the plans for this wonderful building.

Supervisor Havenner: Are they ready now for a discussion and an agreement or disagreement on the part of the trustees and the veterans' organizations?

Supervisor McSheehy: I would say, to some degree, yes, Mr. Supervisor. They are in this tentative form so they can be gone over and so that we will have an idea about what will be the intention of the trustees in the matter.

Supervisor Todd: Did not we have an agreement with the veterans' organizations that we would take no action until after they have approved the plans?

Supervisor McSheehy: I would say, in answer to that, that I am not asking for any action tonight. A division of the veterans' organizations is to meet and I have been invited to attend that meeting and I feel that within the next four or five weeks that the veterans' organizations will approve of these plans or make certain alterations so that they will be approved by them. The trustees and all concerned are very anxious to get this started.

Supervisor Todd: Is it up to this Board to make the final approval of the plans?

Supervisor McSheehy: It is.

Supervisor Havenner: Cannot these proceedings be taken into the hands of this Board now? I find around the City a good deal of uncertainty as to just what is being done with this whole project. The people do not seem to understand it. This Board has been accused repeatedly of delay on various matters, and here is a delay for which we are not in any way responsible. I think we ought to assume the responsibility at the earliest possible moment and bring this matter into the hands of the Board and let any differences of opinion between the trustees and the veterans' organizations be thrashed out in our presence.

Supervisor Todd: That was what I was going to suggest, that we call a meeting.

Supervisor McSheehy: I would ask that this Board take no action whatsoever today. The trustees will meet again tomorrow. I will report as a member of this Board and as a member of the trustees, and perhaps a week from today we could be able to take some action that would mean something. In the meantime I want to leave these plans so that you can all familiarize yourselves with just what is being done in the matter.

Supervisor Stanton: I would like to make a little statement that has some relation to this. The other day some people called me up, music lovers, that happened to be at our concert the other night at the Civic Auditorium, and they began to criticize about us not having a decent place to hold those concerts. They went on to suggest that either the ventilating system or something was wrong in the building, and there was considerable pumping and hammering all night long, which disturbed the concert. After investigating I found that it was the pile driver working across the street, and I wanted to call your attention to the fact that, possibly, the next time, or whenever you have anything of that kind on again, it might be well to see if you could not stop those people from working while the concert was on.

Supervisor McSheehy: I happen to be chairman of the Auditorium Committee and I gladly acquiesce in that.

Supervisor Stanton: Have you been told about that?

Supervisor McSheehy: No, I did not attend the concert only for a short time, but I can say this, that there were eight or ten thousand people there.

Supervisor Stanton: A lot of those people thought that that noise was in the building.

Supervisor McSheehy: I will tell the superintendent and I think that the Bank of Italy, who are erecting the building across the street, will cooperate with us.

Relative to Golden Gate Bridge.

Supervisor Stanton inquired as to Golden Gate bridge project and the Clerk was directed to get information and make statement of status.

Supervisor Stanton's suggestion that a committee of three be appointed to consider the matter was met by Supervisor Roncovieri's statement that the Golden Gate bridge project was under the jurisdiction of the Streets and Commercial Development Committee.

There being no objection, it was *so ordered.*

ADJOURNMENT.

There being no further business, the Board at the hour of 1:30 p. m. adjourned.

Clerk.

Proposed Five Million Dollar Bond Issue for Playgrounds.

Mayor Rolph: I think the Board is always glad and willing to drop other matters for the purpose of hearing from you, Senator Phelan. What are you here for today? (Applause.)

Mr. Phelan: Mr. Mayor and gentlemen of the Board of Supervisors: I feel, for reasons which you understand, that I am not trespassing upon your rule by claiming your attention for a few minutes because, by the fundamental law, I believe I have the right to the floor without the right to vote. (Applause.) I would like you to extend that privilege——

Supervisor McSheehy (interrupting): Law is ahead of the rules, Senator.

Mr. Phelan: And while I am here I cannot refrain from thanking you for the very handsome compliment you paid me recently, under motion of Mr. Byington. I have already written to the Clerk. The object of my call this morning is to explain to you the request of the Playground Commission to include a bond project of five million dollars on the ballot for the next election, which I think is called for May. It is a large sum of money, but it seems to be required for the acquisition of land. The town is growing under your good administration so rapidly the people are flocking in here and building their homes, that it is not right to them to condemn land except for their benefit, and the practice of picking out a piece of land here and there and saying, "That will ultimately be acquired by the Playground Commission or the Park," prevents them from considering the question of making improvements. The thing should be done properly or not at all, in the interest of the home builders. Now, the home builders, I understand, are of one mind as to the need of playgrounds for their children. Since my day in this Board things have changed very much. The automobile has a practical monopoly of the streets and children cannot play without imperiling their lives. So there is a real need in the interest of the children, and, therefore, in a broad sense, the interest of the community, in providing playgrounds where they may go after school hours. And the Playground Commission is a new creation, made necessary by these very conditions. And the policy of the Playground Commission is to have supervised play, as you know. We employ a director to supervise the play so the children will not be unnecessarily rough in their play, and that their safety will be assured in the employment of exercising apparatus. However, the parents are of one mind on this subject, too, and there is a very potent parents' association which feels that they want supervised play in the interest of their children. We have done the best we could with the funds which you have put at our disposal. We have bought, on the installment plan, lots which, when finally acquired at the end of five or six years probably, when pieced together, will make an adequate playground. We are having that experience now in the Potrero. The real estate expert of the Board of Public Works reports to us on the values and then we have independent sources of information, so we think we are acting with much prudence in acquiring the small parcels of land, appraised first by Mr. Philips and then by our own agents. We have worked with the Board of Public Works as we are

working with the Board of Education, as contemplated by the Charter, where the President of the Board of Education is a member of our body and the Superintendent of Parks. Now, isn't it wise, we propose to ourselves, to acquire this land while the City is yet able to pay for it, and before values have inordinately increased? We have selected not any particular site, but neighborhoods where the playgrounds should be acquired. As in the Richmond District, the Lake Merced District, Sloat District, Ingleside District, Oceanview District, Longfellow School District, Crocker-Amazon District, Visitacion Valley District, south of Bayview District, Bayview District, St. Mary's Park District, south of Army District, Cape Kennedy School District, Noe Valley District, Mission District, Potrero Hill District, Eureka Valley District, near the cemeteries district, Pacific Heights District, Polk-Van Ness-Larkin District, Russian Hill District. And besides playgrounds two baseball fields. None of these have been selected. I understand some objection was made by people who said they did not want to sell their land, feeling it was going to be taken. We will find that always. Indeed, it is one of the reasons why we should act promptly because they should not have that threat held over them. They want to use their land, and if they are paid for it, they can acquire other land and build their homes elsewhere.

Now, all that land is estimated to cost $3,750,000, a real estate investment which becomes a great asset for the City, and it will grow with the City. And to develop that property it is estimated it will take $1,250,000, and that is the basis of the request for a five million dollar bond issue. I sincerely believe that there is a general demand for playgrounds, and that this is the only logical way to acquire them.

And then the other question is, whether you should propose it now, or at some later time. For the reasons I have stated I think it is public policy to make the acquisitions as soon as possible. Acquire the land, put the people at rest, and let the town grow around the playgrounds. It will be very desirable to have the town grow around the playgrounds. They are a focal center of tremendous interest to people who build their homes and raise families. I understand you propose to authorize bonds for the May election for Hetch Hetchy and possibly for the acquisition of the Spring Valley. All I know is that there is abundant money under the tax limit, provided by the passage of the amendment which lifted out of the limitation the bonds issued for water works. So you have ample money, there is no question of that. And then the only question that might occur to you who are interested, first, in acquiring a water supply, whether putting a five million bond issue on the ballot, would in any way embarrass you in acquiring the water properties. I am informed, by Chief Engineer O'Shaughnessy, and none more than he is interested in the acquisition of the properties necessary and the work to be done in the acquisition of a water supply, and he says he believes that so popular is this measure for playgrounds that it would help the public and put them in a good humor to vote with two-thirds majority for the water bonds and thus carry the project which you have so very close to your hearts. I do not know whether there is anything more to say. The Playground Commission, augmented by the School Board and the Park Commission, is willing to do this work, and if we had five million dollars we would start at once to acquire the lands. We would settle that question forever, and on the map of the City it would appear that this plot is reserved for playgrounds, and with the money voted at the same time for the development, we can put them in shape for use. I thank you very much, gentlemen.

Supervisor Havenner: If that is agreeable to the members of the Board, I think it is a very wise proceeding that a hearing be held in the immediate future and that, after discussing the matter thoroughly with the members of the Playground Commission, the Board arrive at its decision concerning the date at which this matter be submitted.

Supervisor Gallagher: What is the motion? To refer to the Committee on Education and Parks?

* * * * *

Supervisor McSheehy: May I suggest that the Chairman of the Committee make a motion setting a date?

Supervisor McGovern: I move you to that effect.

* * * * *

Supervisor McGovern: The meeting will be called, I might say,

your Honor and Senator, sometime the latter part of this week. I will get in touch with the Secretary of the Playground Commission and find the most suitable time that you and your Commission will be at leisure.

Mr. Phelan: Our time will be your time.

The Mayor: Then you propose to hold a meeting here in these chambers some night towards the end of this week on this matter?

Supervisor McGovern: Yes.

Supervisor McSheehy: I will second that motion.

The Mayor: Moved and seconded that such a procedure be carried out. Any objections? So ordered.

In Memory of Honorable Jeremiah F. Sullivan.

Mayor Rolph: Gentlemen of the Board, I am detaining the Senator for a few moments, because I feel sad when I announce to you the death, at 4:45 this morning, of Judge Jeremiah F. Sullivan. Judge Jeremiah F. Sullivan is a brother of Matt I. Sullivan. Both have occupied positions on the Supreme Bench of this State, Judge Matt I. Sullivan being the former Chief Justice and his brother, Jeremiah F. Sullivan, a Supreme Justice of the State. He was a young man, raised in this City, and has practiced law up to the time of his death. He was one of the outstanding young men of this City in his day, and he was always for good government. You would always find him out fighting for the best interests of San Francisco. As a member of the bar he became the leader of the bar, and he became the president of the Bar Association of this City, which position he held and made it what it is, for a period of three and a half or four years. His death removes from us another character of the early days of this City when, as Gavin McNab said, he rang the door bells in the City of San Francisco, as did Amadeo Giannini, as did Matt I. Sullivan and as did Senator Phelan, for good government in San Francisco. And when we adjourn today, I hope that we will adjourn out of respect to the memory of Judge Jeremiah F. Sullivan, and I am going to ask the distinguished ex-Senator, the distinguished ex-Mayor of this City, one who knew him intimately, who grew up with him in the Mission, I am going to ask him if he will pay a tribute to the memory of Judge Jeremiah F. Sullivan before he leaves.

Supervisor McSheehy: May I offer this as a motion, that your Honor the Mayor appoint a committee of three to draft the proper resolutions, as stated by you, and to attend the funeral, also representing the City, and that when we adjourn we adjourn out of respect to the memory of Hon. Jeremiah F. Sullivan.

The Mayor: All in favor of that motion will please rise. It is unanimously carried. Senator, will you do the memory of Judge Jeremiah F. Sullivan the honor of a tribute from you.

Mr. Phelan: This is very sad news to hear because I was let to believe that Judge Sullivan was recovering rapidly from his recent illness. He has lived a very long life, but that long life has been used for the benefit of the community in which he was born. He never flagged in doing good. I remember him first when he was a handsome young man, probably twenty years of age, as president of a debating society we had at St. Ignatius College, of which he is an alumnus, and it is vividly in my mind because on one occasion when I was present listening to a debate he was taken with an indisposition and there was great fear felt that there had something serious happened. And as a young boy, I remember that he was tenderly borne out of the room. But it was only, as I say, a passing indisposition and what was feared then you see has not come to pass until he attained a ripe age. I think that Judge Sullivan must be seventy-six years of age, which is more than the allotted time of man, according to the Bible, although, in another part of the Bible there is an assurance that men will live to be a hundred and five years of age, that the rule is five times the date for a person to mature and the maturity comes to man at twenty-one years of age, and five times that would give him an expectancy of life of a hundred and five years of age. So when a man is cut off, we might, in view of that fact, feel sorry that at seventy-six he has not been given the opportunity to attain the full possibility of physical age. But we are living in times of great stress and strain and the Judge, having been active all his life, doubtless felt, in exceptional degree, that stress and strain, and hence, when he dies he dies the victim possibly of our civilization. His services have all been of an invaluable character. There has never been any question

about the worthiness of his motives in all his public contacts. And he leaves a family which will carry his name, and his progeny will increase and multiply and they will look back to this day when the Board of Supervisors adjourned out of respect to the memory of this distinguished citizen. And I trust that we all feel that, though dead, he has not lived in vain.

The Mayor: What is the pleasure of the Board?

Supervisor McSheehy: I want to say a word about Judge Sullivan because I feel this, and I feel it on account of my acquaintance with his family. May I say this, to the members of the Board, Senator Phelan and your Honor the Mayor: There is such a thing in life as character, and as a small boy going to school I remember well when the newspapers every day, column after column, day in and day out, referred to what was then known as the Sharon divorce case in which Judge Sullivan was the presiding judge. And if there ever was a judge who was placed on trial, he was placed on trial, and he stood the trial well. And after he decided that case the papers of this City, the people of this City, went on record testifying to the wonderful character of the man in deciding the case and deciding it the way he did. And he has lived from that day to this day in the minds of all San Franciscans. And I am more than sorry to hear that we lost such an outstanding and such an estimable man.

Meeting of Bridge Committee.

Supervisor McSheehy: May I just make a short statement as Chairman of the Special Bridge Committee, that a meeting was held last Wednesday night in which twenty-two persons, you might say men representing all of the organizations in San Francisco participated, and the consensus of opinion was that all of the civic organizations here in San Francisco, almost to a man, are behind bridge project No. 1, and that they will endeavor to appoint delegates to go to Washington with us at the time that we are requested to appear there before the Congressional Committee. In other words, I can report, as Chairman of the Committee, that I was more than elated at the meeting last Wednesday night, in which an expression of opinion was given by all of these gentlemen representing these various civic bodies.

Statement as to Status of Golden Gate Bridge Project.

The following was presented, read by the Clerk and *referred to the Streets Committee*:

San Rafael, California,
January 16, 1928.

To the Honorable Board of Supervisors of the City and County of San Francisco, San Francisco, California—Attention Mr. J. S. Dunnigan, Clerk.

Dear Sirs:

Confirming my telephone conversation with Mr. Dunnigan today I beg leave to state that the proceedings for the formation of the Golden Gate Bridge and Highway District have reached the following stage:

Protests were received by the Secretary of State until May 31, 1927, after which time these protests were referred to the Superior Courts in the counties from which they came, to-wit, San Francisco, Marin, Sonoma, Napa and Mendocino. No protests were received from Del Norte County. The protests in Sonoma County were heard during the months of November and December, 1927, but no ruling has been made upon them. Since that time the Judicial Council has assigned Judge C. J. Luttrell of Siskiyou County, who heard the protests in Sonoma County, to hear those in all of the other counties. I am in communication with Judge Luttrell as to the setting of the cases, and while definite dates have not been finally agreed upon dates have been agreed upon which will fall between February first and March fifteenth for the hearing of all of the four remaining cases. It is therefore probable that a disposition of all protests will have been finally made by the first of April.

The next step in the proceedings for the formation of the district will be the issuance of the certificate of incorporation by the Secretary of State, and the notification to the Boards of Supervisors of the various counties that they must appoint the direcotrs to represent them on the board. San Francisco's quota of directors will be six.

Trusting that this will give you the information desired, I am

Yours very truly,
GEORGE H. HARLAN.

San Rafael, Cal., Jan. 17, 1928.

To the Honorable Board of Supervisors of the City and County of San Francisco.

Dear Sirs:

Supplementing my letter to you of yesterday, and by reason of hav-

ing notice given me in this morning's San Francisco Chronicle that inquiry had been made by a member of the Board of Supervisors as as to whether or not the Golden Gate bridge proceedings had been "dropped," I beg leave to state that only those who have kept in close touch with the matter can know how very intensive has been the work of pressing forward the Golden Gate bridge proceedings. As stated in my former letter, protests were received by the Secretary of State up to May 31, 1927. Under the act he then was required to transmit these protests to the Superior Court in each county. This he did. The protests which were transmitted to Sonoma County were refused filing by the County Clerk on the ground that filing fees of seven dollars for each protest should be paid. The failure to file would cause delay. Therefore, on behalf of the advocates of the bridge, I brought a proceeding in mandamus before the Supreme Court to compel the County Clerk of Sonoma County to file the protests. This matter was heard and determined on July 6, 1927, the Supreme Court deciding that no fees were necessary. The protests were then filed by the County Clerk and were regularly set for trial before Judge Rolff Thompson of Sonoma County. Judge Thompson, however, deemed that he was disqualified and called upon the Judicial Council to assign an outside judge to try the cases. Judge Waste, as chairman of the Judicial Council, announced that Judge C. J. Luttrell of Siskiyou County would be assigned to try the cases. They were set for a day certain, but at that time Judge Luttrell's mother was so seriously ill that he did not wish to leave Siskiyou County, and the cases were finally postponed until November 24th, when they were commenced. The hearings lasted for two full weeks, and were contested with extreme vigor. The decision has not yet been handed down in those cases. Witnesses for the further hearings will have to be brought from the East, and it is owing to the fact that these witnesses have certain engagements and times within which they can testify that it is necessary to place the hearings on the calendar for such times as they may be present. The hearing in San Francisco will probably be held about February 1 and the hearing in Marin County about February 3. Council for the protestants has announced that he will introduce no evidence in either of these cases, but there are probably one or two independent protestants who will introduce some evidence. Consequently one day each for these counties should be sufficient for the hearings. The hearings in Napa and Mendocino counties, however, involve about eight hundred protests each, and I do not believe that either of these hearings will take less than two weeks.

After all of these hearings have been had it becomes the duty of the County Clerks to transmit to the Secretary of State a certified copy of the judgment, after which the Secretary of State proceeds to call upon the Supervisors to appoint directors and to organize the district.

From the foregoing you will see that everything possible has been done to advance the formation of the district, and that we may reasonably expect that the district can be organized this spring.

Yours very truly,

GEORGE H. HARLAN.

Supervisor Marks: I move you that, as an amendment to the motion of Supervisor Gallagher, the City Attorney be requested to submit to this Board, at the earliest possible opportunity, a form of submission of the issue of public ownership and operation of the proposed bridge, or private ownership or operation of the proposed bridge, for action by the people at the earliest possible opportunity.

Report of Education, Parks and Playgrounds Committee on Proposed $5,000,000 Bond Issue for Playgrounds.

The following report was presented, read and *approved*:

San Francisco, January 30, 1928.

To the Board of Supervisors, City and County of San Francisco.

Gentlemen:

Your Committee on Education, Parks and Playgrounds has given careful consideration and public hearing to the recommendation of the Playground Commission that a five million dollar bond issue be placed before the people for the purchase and improvement of various playgrounds.

The Committee respectfully recommends to the Board of Supervisors that action on this recommendation be deferred, without prejudice, to the playground projects, until vital financial problems confronting the City shall have been solved. The completion of the water project, the construction of boulevards recently ordered by the

people, the building of the War Memorial group will increase the interest and redemption charges of the public debt very materially.

Kezar Stadium.

Another important problem presented to your Committee is the enlargement of the Kezar Stadium. Universal demand is made for a stadium that will seat 65,000 people and permit holdings of the great football games and other athletic events in this City. The Park Commission emphatically recommends this project. Your Parks and Playgrounds Committee approved it and recommends that the Board request the Finance Committee to find ways and means to provide sufficient money for the enlargement and completion of a suitable stadium commensurate with the importance of San Francisco.

Respectfully submitted,

F. J. McGOVERN,
J. M. TONER,
Education, Parks and Playgrounds Committee.

Senator James D. Phelan appeared in support of the proposed bond issue and was heard at length as to the said matter.

NOTICE OF RECONSIDERATION.

Action Deferred.

The following matter was *continued two weeks*:

Relative to Use of Auditorium for Convention of Brotherhood of Locomotive Firemen and Engineermen.

The following report was presented by Supervisor McSheehy and read by the Clerk:

San Francisco,
January 30, 1928.

To the Honorable, the Board of Supervisors, City and County of San Francisco.

Gentlemen:

As Chairman of the Auditorium Committee, I find that a serious misunderstanding has occurred in leasing the Auditorium to the International Firemen and Locomotive Engineers' Association.

On or about August 1, 1926, Mr. Ford, representative of the Local Chapter of the International Firemen and Locomotive Engineers' Association, called at the office of the Board of Supervisors and the clerk in charge of the booking of the Auditorium tentatively reserved the use of the Polk Hall of the Auditorium for a period extending from June 10 to July 10, 1928, for the purpose of holding a convention for said organization.

Subsequently, in September, 1927, there appeared at the office of the Board of Supervisors, Mr. Ford, accompanied by Mr. Hawkins, eastern representative, who declared that Polk Hall wouldn't be sufficient for their purpose, that they would require the Main Auditorium.

The Superintendent of the Auditorium called my attention to the fact that the Committee had allotted the Main Hall of the Audi- June 14th, B. P. O. Elks (tentative); June 26th, Summer Symphony; June 30th, Islam Temple, Shriners (tentative); July 3d, Summer Symphony; July 4th, pageant and celebration; July 10th, Summer Symphony.

An appointment was made to meet the President and Secreatry of the International Firemen and Locomotive Engineers' Association in the Tourists' League office, and, in company with Mr. Foley, the Superintendent, we all met, and the Secretary and President notified us tha+ if they were not granted the Main Hall of the Auditorium and Polk Hall for the time originally asked for, i. e., June 10 to July 10, that they would have to seek convention quarters in some other city. They would not consent to allow-

ing us to use the Auditorium for the Fourth of July celebration or any of the above dates mentioned.

On January 25th a delegation from the Summer Symphony, with a Mr. Thompson, their president, waited on me and notified me that if we cancelled their summer symphony dates that he, personally, would resign as president of the Summer Symphony, and he felt that the Summer Symphony would be disbanded.

Now, gentlemen of the Board, this is a serious matter. I am your representative, as chairman of the Auditorium Committee, and I could not take it upon myself to agree to the terms asked by the International Firemen and Locomotive Engineers' Association, as I felt that that organization, representing, as they do, some one hundred fifteen thousand members throughout the entire United States, and with delegates to this convention of nine hundred fifty-odd, were asking for more than I, personally, feel they are entitled to. Polk Hall will seat fifteen hundred; Larkin Hall will seat fifteen hundred. We have a couple of large rooms upstairs that will seat a couple of hundred that could be used for their delegates. Either of the side halls are commensurate as far as capacity is concerned with the number of delegates to be brought to this City by the association, and ample accommodations are offered by either or both of the side halls.

At the time that Mr. Hawkins appeared he was told that solicitations were being made for the Republican and Democratic conventions, and that if either of those conventions came here that they would have preference, and for that reason no definite assurance was given to him that they could have the Main Hall.

The problem before the Board is: Should the International Firemen and Locomotive Engineers' Association be given the Auditorium from the 10th of June to the 10th of July, or, as they state they might require it, from June 7 to July 15, 1928?

As chairman of the Auditorium Committee I feel that the use of Polk Hall, Larkin Hall, two of the upstairs halls, free of rent, including light, heat and power and paraphernalia, should be tendered to the association. Or, in other words, the Auditorium is at the entire disposal of the International Firemen and Locomotive Engineers' Association during their stay in San Francisco between the 7th of June and the 15th of July except the use of the Main Auditorium.

If the Main Auditorium is given to this association for convention purposes it will mean the cancellation of the Summer Symphony concerts, the Fourth of July celebration and other options that have been given for the use of the Auditorium. The cancellation of the Summer Symphony concerts will mean the discontinuance of these popular concerts that have been enjoyed by thousands of our citizens. The cancellation of the Fourth of July celebration, which has been one of our outstanding features for many years, will work a like hardship on thousands of our citizens.

I am placing these facts before you, gentlemen, just as they appear to me. You have the right to allot the Auditorium to this association as per their request, or you have the right to allot the side halls to them if you think they are adequate for their purpose. The Main Hall of the Auditorium will seat twelve thousand people, whereas this convention does not require a seating capacity for convention purposes of over a thousand and for visiting delegates of over twenty-five hundred.

Personally I think that the greater good will be accomplished for the greater number if Polk and Larkin Halls are tendered to this convention and the Auditorium allowed to be used for other necessary functions.

Respectfully submitted,

JAS. B. McSHEEHY,

Chairman Auditorium Committee.

Resolution.

Supervisor Colman presented the following resolution and moved its adoption under suspension of the rules in lieu of the foregoing report:

Death of Hon. Jeremiah F. Sullivan.

Supervisor McSheehy presented:

Resolution No. 28433 (New Series), as follows:

The people of San Francisco learn with deep sorrow of the death of the Honorable Jeremiah F. Sullivan. As a jurist and a citizen Judge Sullivan set a great example by devoting his splendid attainments to the cause of justice and good government. His service on the bench of the Supreme Court of the State of California and the Superior Court of San Francisco was marked by integrity and ability; his indefatigable efforts for clean government, national, State and municipal, stamped him as an honorable and patriotic citizen.

Judge Sullivan earned and held the respect and admiration of the public; his friends and associates regarded him with affection and confidence. In his professional life he had the veneration and esteem of members of the bar.

Therefore, it is fitting that the Board of Supervisors, representing the people of San Francisco, express regret that an honorable and long career has come to an end. As a mark of respect to the memory of Judge Sullivan the Board does adjourn.

To his family we extend our sincere sympathy.

Adopted unanimously by rising vote.

Report of Committee on County Supervisors Convention.

Supervisor Todd presented:

San Francisco, Cal.,
February 9, 1928.

The Honorable Board of Supervisors, San Francisco, California.

Gentlemen:

Your Special Committee appointed by the Mayor, consisting of Chairman Todd, Supervisors Gallagher and Suhr, and Assistant City Engineer Healy, attended the third meeting of the Special Committee of the County Supervisors' Association of the State of California in Fresno on January 30 and 31, 1928.

There, in conjunction with the Special Engineering Committee, consisting of R. H. Morton, State Highway Engineer; Chris. P. Jensen, County Engineer, Fresno County; E. E. East, Engineer for the Automobile Clubs of Southern California; Lloyd Bowman, County Engineer of Santa Cruz County, and George W. Jones, Supervisor of Los Angeles County, we entered into a study of the revision of the present motor vehicle operation on the highways and city streets.

There were also present J. H. Hunter, President, State Supervisors' Association; Stanley Abel, Secretary, State Supervisors' Association; William Haman, Chairman, Special Motor Vehicle Committee of the Supervisors' Association; Thomas Hickey, Supervisor, San Mateo County; H. P. Howe, member of the Supervisors' Vehicle Committee; Supervisors W. A. Collins, Robert Lochead and P. H. McMurtry, and R. H. Stalmaker, Equipment Engineer for the State Division of Highways.

On Monday a general discussion was had relative to the weights on motor trucks, both with four and six wheel equipment and also as to making more stringent the present Motor Vehicle Act dealing with the character and type of brakes on vehicles on highways. These

discussions were general in character and were entered into by all those present, and covered virtually all phases of truck transportation, including impact, weights, operation, speeds, brakes, police control, legislation, trailers and penalties.

On Tuesday, January 31, the Engineering Committee, with the addition of Assistant City Engineer C. E. Healy and Mr. Stalmaker, sat in executive session for the entire day, whipping into general shape the various ideas that had been advanced by the interested Supervisors and the engineers, and brought out in the discussions of the previous day.

The committee did not finish its work, and adjourned to meet in this City at the Hotel Whitcomb on February 20, 1928, at 9:30 a. m., to make further investigations and studies, in order that a complete and comprehensive report may be made to the annual State convention of Supervisors, which will be held in this City on March 6, 1928.

Your committee feels that the legislation under way is of vital importance to the State as a whole, and especially to San Francisco, and it urges that other members of the Board join with the committee at the next meeting in order to help in formulating this legislation, which will be of great benefit to the City if adopted.

Very truly yours,
CHAS. F. TODD.
FRED SUHR.
ANDREW J. GALLAGHER.

Ordered *filed*.

Unemployed Problem.

David McC. McKell, representing the American Legion, was granted the privilege of the floor on motion of Supervisor Havenner. He addressed the Board on the proposition of affording relief for the unemployment situation by speeding up work on civic projects and to that end declaring that the American Legion will give its entire support to any measures proposed.

Supervisor Havenner declared that the Finance and Streets Committees had already given the matter consideration and that work had been ordered expedited on all public projects, and that the committees have been promised fullest cooperation by the City Engineer's department in getting work under way at the very earliest possible date.

He declared that they were taking up and continuing work on the Great Highway where the Park Commissioners had left off; that it has been suggested that the Hetch Hetchy staff be increased if that can be properly done and that every boulevard bond project is being pushed ahead as rapidly as possible.

Supervisor Gallagher coincided with all that was said with respect to expediting street and boulevard construction and added that $200,000 had been released in order that work might be commenced as soon as possible and that by the 27th of the month three-fourths of a million will be available.

He called attention to Supervisor Havenner's suggestion last week that the Mayor be requested to call a conference of representatives of industrial and construction projects to see what can be done to relieve the situation.

His Honor the Mayor declared that he knew nothing of the proposed conference but that as soon as he receives notice he would call the conference.

Action Deferred.

The following matter was *laid over one week*:

Finally passed—Board of Supervisors, San Francisco, January 23, 1928.

Statement of Supervisor Stanton.

San Francisco, Cal.,
February 14, 1928.

Mr. Mayor and Gentlemen:

I am going to vote against the appropriation of any more of the people's money to carry on this useless fight against the United States government in the matter of bridging the bay. This thing has been going on for nearly two and a half years and we have not gotten anywhere. We have spent much more than fifty thousand dollars for engineers and for trips to Washington, not to say anything of thousands of dollars more that have been wasted in the time of officials who should have had this bridge matter behind them so that they could be devoting themselves to other important matters that require our attention.

Last summer the Mayor and several other distinguished gentlemen were sent to Washington and we were told then that the decision of the Washington authorities against a bridge north of Hunters Point would not be changed. The commission of three eminent engineers went along on that trip. All the evidence possible has been presented to the government officials and their ruling remains the same today as it was when they first announced it, in 1921, and later when they reaffirmed it, in 1925. Senator Hiram W. Johnson has informed us, I believe, that it will be useless to try to take the bill that is before Congress out of the committee unless San Francisco can make a much more convincing showing than has already been made. I do not believe that we can make that

showing. In other words, I believe that in two and a half years we have gathered every scrap of evidence available, to bring about a modification of the War Department rulings and we have failed. If the gentlemen who believe another trip to Washington is necessary have any more evidence than that we have already assembled and presented they should tell us. Otherwise it is just throwing good money after bad, and I believe that it will not be long before the people of San Francisco will want an accounting.

I am informed that one of the engineers, at least, drew $150 a day from the City while he was at Washington, and I am informed that the City is now employing a young man to remain in Washington to look after our interests.

I want the fullest investigation of these bridge matters, of course, and I believe that the City should have every opportunity to present its case in this matter or in any other matter. But it must be apparent now to everybody that we are losing very valuable time in these bridge matters and that the big amounts of money we are spending are being practically thrown away.

In the meantime San Mateo County actually has a bridge under way from Coyote Point over to a point near Hayward, on the other side of the bay, and only last Friday the Board of Supervisors of Contra Costa County granted a franchise for a bridge from a point above Richmond to a point near San Rafael, on the other shore, over which the traffic from the Redwood Empire Highway will pass from British Columbia and northern points to the Coast Highway and Los Angeles, through the City of Oakland. It seems to me that we should get busy and do what Washington will allow us to do if we really want a bridge.

Ayes—Supervisors Colman, Deasy, Gallagher, Havenner, Kent, McGovern, Powers, Roncovieri, Schmidt, Shannon, Suhr, Todd, Toner—13.

No—Supervisor Stanton—1.

Absent — Supervisors Badaracco, Hayden, McSheehy, Marks—4.

Protest Against Military Objections to Bay Bridge, Bay Accident.

Supervisor Havenner presented:

Resolution No. 28546 (New Series), as follows:

Whereas, on Friday, February 17, 1928, a score of persons were swept into the waters of San Francisco Bay, and five lives are reported to have been lost, as a result of a wall of water breaking over the deck of a crowded ferry boat; and

Whereas, less than a year ago another ferry boat was sunk in San Francisco Bay as a result of a collision in a fog; and

Whereas, the commuter traffic across San Francisco Bay now amounts to approximately 60,000 persons daily and will increase steadily with the growth of the communities around the bay; and

Whereas, serious accidents similar to those herein described are narrowly averted on almost every occasion when high winds or fogs prevail upon San Francisco Bay; and

Whereas, the all-important consideration of safety for human lives necessitates the construction of a bridge across San Francisco Bay which will accommodate the great volume of commuter traffic; therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco solemnly protests against the purely military objections advanced by the Navy Department against the construction of such a bridge and respectfully directs the attention of the Secretary of War, the Secretary of the Navy, and the members of the Congress of the United States to the fact that the technical military objections, if allowed to prevail, will perpetuate indefinitely the present menace to the lives of many thousands of people living in this community; and be it

Further Resolved, That this Board of Supervisors respectfully urges the Congress of the United States to take cognizance of these accidents and the ever-existing menace to human lives under the present condition on San Francisco Bay as an additional argument why permission should be granted in the immediate future for the construction of a bridge across this body of water; and be it

Further Resolved, That the representatives of San Francisco in the Senate and the House of Representatives be requested to spread this resolution upon the pages of the Congressional Record.

Adopted by the following vote:

JOURNAL OF PROCEEDINGS BOARD OF SUPERVISORS

MONDAY, FEBRUARY 27, 1928, 10 A. M.

In Board of Supervisors, San Francisco, Monday, February 27, 1928, 10 a. m.

The Board of Supervisors met in regular session.

In the absence of his Honor Mayor Rolph, Supervisor Shannon was elected to preside.

ROLL CALL.

On calling the name of Supervisor Badaracco the members of the Board of Supervisors and those present in the chambers arose and remained standing in silent tribute to the memory of Supervisor John B. Badaracco, who was killed Sunday morning in an automobile accident near Castroville.

The roll was then resumed and the following Supervisors were noted present:

Supervisors Deasy, Havenner, Hayden, Kent, McGovern, McSheehy, Marks, Roncovieri, Schmidt, Shannon, Suhr, Todd, Toner—13.

Absent—Supervisors Colman, Gallagher, Powers, Stanton—4.

Quorum present.

Death of Supervisor Badaracco.

Supervisor Havenner: Mr. Chairman, death has suddenly and tragically invaded the membership of this Board, and I know that every member of the Board is very deeply shocked by the passing of our colleague and friend, Supervisor John Badaracco, whom we all loved. His Honor the Mayor has just telephoned from Los Angeles expressing his deep regret at his absence from the City at this time, and assuring the members of the Board that he will return to San Francisco to be present at the funeral of our colleague, and extending to us the assurance of his fullest cooperation and the cooperation of his office in the arrangement for the funeral. Supervisor Badaracco left San Francisco on Saturday afternoon with two friends on a pleasure trip down the Peninsula with the objective of visiting the practice grounds of the San Francisco baseball field. As we all know, Supervisor Badaracco was an enthusiastic baseball fan. It had been his custom for years to pay visits to the training camps during the spring season. He invited a number of his friends to go with him on this trip. Several of them were unable to accept the invitation, and finally he left with two young men living in his district of the City. I find it very difficult in view of the shock which I, myself, have experienced to pay a proper tribute to our colleague at this time. I had known him intimately as a personal friend for years before I came on this Board. I was extremely fond of him. He was a man who had the rare quality of being able to retain his boyhood spirit through all the years that he has served in official capacities as an elected representative of the people of the State and of the people of the City and County of San Francisco. His record has been an honorable one. He has served the people as a whole and the people of his district with fidelity and efficiency. His name will go down in history among his neighbors as well as among the people at large and signed with affection. I believe that it will be the desire of the Board to take a recess at this time in respect to the memory of our colleague. Unfortunately, by reason of legal requirements, it is our duty today to pass upon the sale of bonds which has been advertised for a fixed hour on this day. Therefore, when we recess at this time it will be necessary for us to meet briefly this afternoon in order to comply with the legal requirements of the bond sale.

Resolution.

Whereupon, the following resolution was presented by Supervisor McSheehy and *adopted by rising vote*:

Resolution No. 28554 (New Series), as follows:

The untimely death of Supervisor John B. Badaracco is a distinct loss to the people of San Francisco. His passing is a misfortune to his colleagues, the members of the Board of Supervisors, and a shock to his thousands of friends in this City.

John Badaracco served the municipality faithfully, efficiently and loyally. He also, as a member of the Legislature of the State of California, made a record of which any official might be proud.

In his activities as a legislator of the State and the City and County he gained and held the respect and confidence of all persons with whom he came in contact and he was always mindful of the public interest in voting for those measures that made for the common good of the public and the betterment of government.

To his bereaved mother and brothers and sisters is extended the deepest expressions of sympathy of the members of this Board. Be it

Resolved, That when this Board adjourns today it do so in respect to the memory of John B. Badaracco and that all members of the Board attend the funeral. That during the funeral ceremonies the office of the Board of Supervisors be closed as a further mark of respect.

Further Resolved, That as a mark of esteem and respect for the services as a public official of the late Supervisor Badaracco the rotunda of the City Hall be set aside for a period of time agreeable to his family during which the remains may lay in state.

Motion.

Supervisor Havenner: It is the desire of the family of Supervisor Badaracco that his casket be brought to the City Hall tomorrow afternoon. The exact hour has not yet been set, but it will be determined by his relatives. I would move at this time that the entire membership of the Board, as soon as the hour of the arrival of the body is announced, be present in the City Hall to receive the casket and to pay to our colleague the respect which is his due and which we all desire to pay to him.

So ordered.

RECESS.

Supervisor McSheehy: I move at this time that we recess until 3 p. m.

The Chairman: If no objection such will be the order. (Recess.)

J. S. DUNNIGAN,
Clerk.

REASSEMBLED—3 P. M.

The Board of Supervisors reassembled at 3 p. m.

CALLING THE ROLL.

The roll was called and the following Supervisors were noted present:

Supervisors Colman, Deasy, Havenner, Hayden, Kent, McSheehy, Marks, Roncovieri, Schmidt, Shannon, Suhr, Todd, Toner—13.

Absent — Supervisors Gallagher, McGovern, Powers, Stanton—4.

ROLL CALL FOR PETITIONS FROM MEMBERS.

Letter of Sympathy, Death of Supervisor John B. Badaracco.

The following was read by the Clerk and, on motion of Supervisor Shannon, *ordered spread in the minutes*:

February 28, 1928.

Board of Supervisors, City Hall, San Francisco, California.

Gentlemen:

The members of the Twenty-ninth and Castro District Improvement Club wish to extend to the members of the Board of Supervisors their deepest and heartfelt sympathy for the sudden death of Supervisor John B. Badaracco, who was their friend from the beginning of this club when it was first organized two years and a half ago.

Sincerely,

Unemployment Situation.

The Clerk read a communication from the Building Trades Council under date of February 27th requesting cooperation of City officials in relieving unemployment situation.

Supervisor Havenner: I suppose there is nothing we can do other than to receive the communication. I think the representatives of the Building Trades Council should know, however, that every step that can legally be taken by this Board to expedite the construction projects before us has been taken, and during the past week, by arrangement with the Treasurer, one hundred men have been put to work on the Great Highway project, and on the other projects for which bids have been called for it has been absolutely mandatory upon us to wait until the legal procedure is carried through, but I think in every instance where there has been the possibility of expediting construction work the necessary steps have been taken.

The Chairman: Would it not be advisable for the Clerk to answer that letter?

Supervisor Havenner: I would be glad if the Clerk would address a letter to the Building Trades Council based upon the remarks that I have just made.

The Chairman: So ordered.

Communication From N. A. Eckart, Chief Assistant Enginer, re "Bulletin" Article on Municipal Railway Situation.

The following was presented by Supervisor Gallagher, read by the Clerk and *ordered filed*:

March 2, 1928.

Mr. William M. Hines, Editor The Bulletin, San Francisco, California.

Dear Sir:

In an article on the Municipal Railway situation appearing in The Bulletin of March 1st, I have been misquoted, particularly in the paragraph:

"'Politics is a factor,' said Assistant City Engineer Eckart, who was present. 'Repeatedly you hear the statement made in the Board of Supervisors, 'Let the people have the extensions they want, whether the City loses money or not. I have

heard Supervisor Gallagher say that more than once.' "

In order that an erroneous impression may not remain, I would appreciate your giving equal publicity to the following, which is the statement I made:

"It has been the policy of the City to build extensions into the outlying districts and give a service of rather frequent headway, often a through service, even where these particular lines would not initially pay their operating expenses. This policy was well enough when the system as a whole was earning a revenue sufficient to meet all operating expense, pay bond interest and redemption charges, set up a proper depreciation reserve and still show a surplus. We have now come to a point where it is not possible to furnish this high standard of service in the lean districts and operate our bus lines on a transfer and pay all operating expense, bond interest and redemption charges and provide fully for depreciation out of current revenues, and it is a question of policy as to whether expenses shall be curtailed to meet the revenues, or whether any operating deficits should be otherwise made up, possibly as I have heard Supervisor Gallagher state in a public meeting that he felt it was the purpose of the Municipal Railway to give service rather than to make a profit and if a loss was necessary to do this the City could well afford to make it up."

Very truly yours,

N. A. ECKART,
Chief Assistant City Engineer.

San Francisco Proposes a New Plan for Municipal Operation.

By Delos F. Wilcox.

(Reprinted from National Municipal Review, Vol. XVII, No. 2, February, 1928.)

The following was presented by Supervisor Havenner and *referred to Judiciary Committee*:

(The Board of Supervisors have presented a charter amendment to consolidate all her utility enterprises under a single utility commission.)

Alone among the great cities of the country, the City of San Francisco has been committed by its charter for many years to the general policy of municipal ownership. It has been operating a system of municipal railways since 1912, in partial competition with the privately owned systems, and has committed itself politically and otherwise to complete municipal ownership and operation of street railways, water supply and electric lights and power, at least.

After fifteen years of experience with municipal operation by the Board of Public Works under the more or less minute control of the Board of Supervisors, the City has become conscious of the need for a more effective plan of municipal operation, and there seems to be practical unanimity in public sentiment for the establishment of a non-political utility commission to administer all the City's utility enterprises. A charter amendment providing for such a commission has been drafted, and has been approved by the Board of Supervisors to go on the ballot in November, 1928. After being ratified by the people, all city charter amendments in California are subject to approval by the Legislature; but thus far, such approval has always been given without question or delay.

The Charter Amendment.

The San Francisco plan for the administration of municipal utilities, if adopted, will set a landmark for the entire country. The comprehensive nature of the plan is expressed in the first section of the proposed charter amendment as follows:

The construction, management, supervision, maintenance, extension, operation and control of all public utilities and other properties, used, owned, acquired, leased or constructed by the City and County of San Francisco, as well as all extensions, additions and betterments thereto, for the purpose of supplying to the said City and County and its residents and inhabitants, and territory outside the limits of said City and County and the residents and inhabitants thereof, with water, light, heat, power or transportation shall be exclusively vested in a utility commission of three members, anything in this charter to the contrary notwithstanding. The commission shall have power to make all rules and regulations not inconsistent with the provisions of this article which it deems necessary or proper for the conduct of its business and the regulation of the matters herein committed to its charge.

The commission will consist of three members appointed by the Mayor subject to confirmation by the Board of Supervisors. The terms of office will be six years, except that the first appointees will hold office for two, four and six years, respectively. Commissioners will be removable in the same way as elective officers.

The commission must appoint, as

its chief executive and administrative official, a manager of utilities, who need not be, at the time of his appointment, a resident of the City. The commission may create departments or bureaus, with submanagers or directors. Neither the manager nor the submanager will be subject to civil service rules, and they will hold their positions at the pleasure of the commission. An auditor and all the other employees, subordinates and assistants required for the conduct of its business may be appointed by the commission subject to civil service rules, except that persons employed on construction work outside of the City and one personal secretary or confidential clerk to the manager and each submanager will be exempt. Also the civil service rules will not apply to "persons employed for temporary service in positions requiring high technical skill." The operating employees of any utility taken over by the City will retain their positions and acquire a status in the civil service, if they have been employed for at least a year before the utility is taken over.

Powers of the Commission.

Salaries, wages and working conditions are to be fixed by the commission subject to the limitation of the hours of labor prescribed by law and by the charter. The charter contains the following provisions for platform men and bus operators on the Municipal Railway:

The basic hours of labor shall be eight hours, to be completed within ten consecutive hours; there shall be one day of rest in each week of seven days; all labor performed in excess of eight hours in any one day or six days in any one week shall be paid for at the rate of time and one-half.

The manager of utilities will have the power of suspension over the employees of the commission for cause or for disciplinary purposes. The commission may continue a suspension for disciplinary purposes for a time not to exceed thirty days, and may order the manager to prefer charges against a suspended employee. Removals by the commission will be subject to the appeals provided for in the civil service rules.

The commission will have power "to make contracts for work, supplies, materials, or equipment" when the cost can be met out of current revenues or from the funds appropriated for its use or derived from the sale of bonds authorized for the construction or acquisition of public utilities. Construction work is to be done by public contract unless, upon recommendation of the manager, the commission decides that the work can be more advantageously carried on by its own employees. The commission may make its own rules in regard to public letting, but they must provide for at least five days' advertising for bids and award to the lowest responsible bidder, with the right to reject all bids and readvertise, or to reject the proposal of any bidder who in the opinion of the commission is not competent to fulfill the contract.

One of the greatest problems in municipal operation of street railways is the control of extensions. In this matter the commission will be supreme.

Accounts are to be kept separately for each utility in the form prescribed by the railroad commission for utilities of like character, and other necessary accounts, accounting forms, and procedure are to be maintained as prescribed by the utility commission. Monthly reports of receipts and expenditures for each utility, and annual reports, are to be filed with the Board of Supervisors and printed for public distribution.

Financial Provisions.

The manager of utiltiies must prepare a separate annual budget for each utility. After public hearings the commission may adopt this budget, or modify it. Copies of the budget as adopted must be filed with the Mayor and with the Board of Supervisors, and expenditures are not to exceed the appropriations for the respective items in the budget as adopted. Each utility is to be self-sustaining unless funds for its relief are appropriated by the Board of Supervisors.

The funds of one utility may not be diverted to any other utility, but any surplus accumulated in excess of a maximum fixed by the commission will be automatically transferred to the city's general fund. However, by unanimous vote the commission may adopt "a program for the accumulation of a surplus to cover a period not exceeding ten years, for the purpose of financing extensions and additions to existing utilities out of said accumulation." No funds accumulated from one utility may be used to pay for additions or extensions of another utility, and no surplus accumulated for additions and extensions may be used for any other purpose un-

less authorized by the Board of Supervisors by ordinance.

The commission will have authority to capitalize interest during construction and for a period of not more than six months after the completion of construction.

The receipts from the operation of each utility are to be paid into the city treasury and kept in a separate fund from which the commission may make appropriations for the following purposes in the order named:

(a) For payment of the operating expenses of such utility, including pension charges and compensation insurance;

(b) For repairs and maintenance;

(c) For payment of interest and sinking funds on the bonds issued for the acquisition or construction of such utility and extensions thereto;

(e) For reserve funds out of which to construct or acquire extensions and betterments to said utility;

(f) For a surplus reserve.

The commission must maintain pension and compensation insurance accounts, with annual estimates of the proper reserves required therefor. The manager must appraise the lines of the several classes of property for each utility and determine the amount of a reasonable reserve for depreciation and obsolescence as they accrue, subject to reappraisal once in five years. Pending such appraisal the monthly appropriations to the reserve are to be on the basis of four per cent per annum on the historical cost of the utility property. Reasonable accident reserves also must be maintained out of revenues subject to a reappraisal every five years.

Rates and Fares.

The commission will have power to fix and adjust rates and fares. Rates may be fixed at varying scales for different classes of service or consumers; and the rates so fixed "must include rates for services rendered any department or other utilities of the City and County." The rates fixed must be such that the aggregate revenue derived from them for each specific utility "shall represent not less than the actual total cost of the service of that utility as determined by the commission; provided further, that when the utility commission on the basis of a financial analysis in writing by the manager of utilities, may recommend to the Board of Supervisors a scale of rates under which estimated aggregate revenues from a specific utility may represent less than the actual cost of the service rendered by such utility, the Board of Supervisors, by a two-thirds vote of all members, may authorize such scale of rates, and must, at the same time, specify the manner in which the estimated annual operating deficits will be met. Such rate schedule may then be adopted by the commission."

The commission may provide for the rendition of utility services outside of the city limits at rates which may include proportionate compensation for interest during construction paid out of taxes.

Each utility must pay out of its revenues the cost of services rendered to it by other departments and utilities, and in its use of the streets the commission must obey all ordinances, and regulations of the board of public works in regard to street openings, and must pay the same fees in connection therewith that privately owned utilities would have to pay.

The commission, with the approval of the Board of Supervisors, will have authority to lease lands under its control for periods of not to exceed ten years, and will have power to acquire by purchase, lease, condemnation, or otherwise, property within or without the city limits which it may deem necessary for the construction, maintenance, extension or operation of the works under its control.

San Mateo Asked to Reconsider Action on Proposed Candlestick Point Bridge.

Supervisor McSheehy presented:

Resolution No. 28622 (New Series), as follows:

Whereas, the Honorable Board of Supervisors of the County of San Mateo did, on the 5th day of March, 1928, grant authority to one Albert Mansfield to construct, operate and maintain a toll bridge from a point in San Mateo County almost immediately adjoining the boundary line of the City and County of San Francisco to the foot of Webster street in the City of Alameda, County of Alameda, State of California; and

Whereas, the said matter of the granting of said franchise to said Albert Mansfield will be reconsidered by the said Board of Supervisors on the 12th day of March, 1928; and

Whereas, the Board of Supervisors of the City and County of San Francisco at the present time has pending before it various applications for authority to construct toll bridges from various points in the City and County of San Francisco to various points in the County of Alameda; and

Whereas, the said Board of Supervisors of the City and County of San Francisco did heretofore appoint a board of three engineers, to-wit, Robert N. Ridgway, Arthur N. Talbot and John D. Galloway, who, with M. M. O'Shaughnessy, City Engineer of the City and County of San Francisco, have made a careful study and survey as to which of the various locations, from which it was proposed to construct said bridge, would be the most feasible and best serve all of the people residing on the westerly and easterly sides of the Bay of San Francisco; and

Whereas, the said engineers have reported that a bridge from Rincon Hill in the City and County of San Francisco to a point near the South Mole in Alameda County is the most feasible route for the construction of a trans-bay bridge and the route which will best serve all of the people on the westerly and easterly sides of said Bay; and

Whereas, the City and County of San Francisco has made application to the Congress of the United States for permission to construct a trans-bay bridge in conformity with the aforesaid report and bills granting said permission are now pending passage before the Congress; and

Whereas, the War Department of the United States has heretofore announced as a policy that it would approve and permit the construction of only one trans-bay bridge north of San Mateo, between San Francisco and Alameda County; and

Whereas, a bridge constructed in conformity with the application of said Albert Mansfield will be of no benefit to the people of the City and County of San Francisco, and the westerly terminus thereof is so far distant from the centers of population of the City and County of San Francisco, that said bridge cannot be used for interurban rapid transit as can the said bridge proposed to be constructed by the City and County of San Francisco from Rincon Hill to the said Alameda Mole; and

Whereas, the granting of any franchise or permit by the Board of Supervisors of the County of San Mateo will seriously embarrass the City and County of San Francisco in the obtaining of any permit to construct a trans-bay bridge from Rincon Hill, in conformity with its present plans; and

Whereas, the interests of the people of the City and County of San Francisco and the people of the County of San Mateo are so intimately connected and associated that the success of one is the success of the other, and the City and County of San Francisco has at all times in the past cooperated to the fullest extent with the County of San Mateo in all matters that have been for the benefit and improvement of said county; now, therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco, in special meeting assembled, do hereby respectfully protest against the granting of any franchise or authority to Albert Mansfield, or to any other person, to construct a trans-bay bridge at or near the point commonly known as Candlestick Point, and respectfully requests the said Board of Supervisors of the County of San Mateo, and each and every member thereof, to reconsider its vote granting said franchise to said Albert Mansfield, and on the reconsideration of said vote to deny said application; and be it

Further Resolved, That the Clerk of this Board forthwith transmit a copy of this resolution to the Clerk of the Board of Supervisors of San Mateo County, and to each and every member thereof.

Adopted by the following vote:

Ayes—Supervisors Colman, Deasy, Gallagher, Havenner, Hayden, McSheehy, Marks, Powers, Roncovieri, Schmidt, Shannon, Stanton, Suhr, Todd, Toner—15.

Absent—Supervisors Kent, McGovern—2.

Motions.

Supervisor McSheehy moved that the Board of Supervisors as a whole attend the meeting of the Board of Supervisors of San Mateo County Monday morning at 10 a. m. to protest in a body against the granting of a franchise for a bay bridge from Candlestick Point.

Motion *carried* by the following vote:

Ayes—Supervisors Colman, Deasy, Gallagher, Havenner, Hayden, McSheehy, Marks, Powers, Roncovieri, Schmidt, Shannon, Stanton, Suhr, Todd, Toner—15.

Further Resolved, That the foregoing declaration of policy be submitted to the electors of the City and County of San Francisco, for their approval or disapproval, at the general municipal election to be held on Tuesday, November 8, 1927.

Board of Public Works Confirms City Engineer's Estimate of the Cost of the Acquisition of the Spring Valley Water Company.

The following was read and *ordered spread in the Journal*:

Board of Public Works, Resolution No. 101269 (Second Series), as follows:

Resolved, That this Board confirms the estimate of the City Engineer of $41,000,000 of the cost of acquisition of the water supply system of the Spring Valley Water Company, required by the City and County of San Francisco.

Reference is made to Resolution No. 28587 (New Series), adopted by the Board of Supervisors March 5, 1928, submitting to the Board of Public Works for study and report the offer of the Spring Valley Water Company, filed with the Board of Supervisors on March 2, 1928, for the sale of water rights, rights of way, storage reservoirs, water works, water supply, pumping plants, lands within and without the confines of the City and County of San Francisco, and distributing system owned by that company, used or useful in supplying water to the City and County of San Francisco and to its inhabitants.

The plans and estimates of the City Engineer totaling $41,000,000, mentioned above, were transmitted to the Board of Supervisors by Resolution No. 101038 (Second Series), passed February 27, 1928.

Offer of Spring Valley Water Company to Sell Certain Properties to the City and County of San Francisco.

March 9, 1928.

To the Honorable the Board of Public Works of the City and County of San Francisco.

Gentlemen:

The Board of Supervisors, by its Resolution No. 28516 (New Series), has submitted to you for study and report the offer of the Spring Valley Water Company, dated March 3, 1928, for the sale of certain of its properties to the City and County of San Francisco, and you have referred the matter to me.

The offer sets forth the net price of the property as of December 31, 1927, in the amount of $39,047,595.81, and indicates the method of bringing the price down to the actual time of transfer of the property to the City.

On April 14, 1922, the company gave to the City, for the period ending December 31, 1933, an option for the purchase of certain of the company's properties. The net price to be paid by the City is to be determined in accordance with the terms of this option and of certain orders of the Railroad Commission which have a bearing on the matter.

Presumably the conditions of the present offer of the company represent the company's interpretation of the terms of the option and of the Railroad Commission's order. I find that the price set forth in the offer and the method of bring this price down to the actual time of transfer of the property to the City are in accordance with the terms of the option and Railroad Commission orders, with certain possible exceptions which need not be given consideration until the time arrives for finally determining upon the price to be paid by the City for the company's property, after the voters have signified their approval of the proposed purchase.

In my report to you, dated February 27, 1928, I indicated that the estimated cost of acquisition of the water supply system of the Spring Valley Water Company required by the City and County of San Francisco was $41,000,000, which figure includes certain additions and betterments and other capital expenditures to be made during the year 1928.

I hereby reaffirm my estimate of the cost of acquisition of the water supply system of the Spring Valley Water Company, required by City and County of San Francisco, as $41,000,000.

Respectfully,
M. M. O'SHAUGHNESSY,
City Engineer.

In re Lease of 333 Kearny Street.

Supervisor Powers presented:

Resolution No. ——— (New Series), as follows:

Whereas, the City entered into a lease in writing with Louis T. Samuels on the 3rd day of May, 1926, for the premises known and designated No. 333 Kearny street for a term of five years two and one-half months from the 15th day of April, 1926, at a monthly rental of $1,-185.30, containing 7902 square feet on the 4th, 5th, 6th and 7th floors of said premises, for the purpose of housing the offices of the District Attorney, the Public Defender, the Adult Probation Officer and the Grand Jury; and

Whereas, it is the intention to remove the offices of the District Attorney to the Hall of Justice, thereby decreasing the footage area occupied by City officials in said building, No. 333 Kearny street, from 1902 square feet as now contained in the lease of said premises to the number of 3118 square feet, being the space required to be retained for the respective officials remaining therein; and

Whereas, the owner, Al Jacobs, successor in interest to said Louis T. Samuels has by communication offered and agreed to a modification of the present lease to the extent only that the said lease recite the amount of 3118 square feet situate on the 4th and 5th floors of said building to be retained by the City for the accommodation of the Public Defender and the Adult Probation Officer, in lieu of 7902 square feet as set forth in the present lease, and to be charged for at the rate of 21 cents per square foot, amounting to a monthly rental in the sum of $654.78 during the balance of the period of time expressed in the present lease; therefore, be it

Resolved, That the offer of the owner of said premises, Al Jacobs, be and is hereby accepted and the City Attorney be and he is hereby authorized and requested to confer with said owner and have a modification to said lease of premises No. 333 Kearny street legally prepared in accordance with the said offer and agreement; and his Honor the Mayor is hereby authorized and requested to enter into a lease with said owner in accordance with the modifications herein set forth.

Supervisor Powers: Mr. Chairman and Members of the Board: A few months ago I was instructed by the Board of Supervisors to have a modification made of the lease of No. 333 Kearny street. I went down personally on two different occasions to the owner of the building, which is now Mr. Jacobs. When the City and County of San Francisco entered into this lease it was owned by former Supervisor McLeran and leased from Mr. Samuels who was handling his estate at that time, and it caused a terrible controversy in the Board of Supervisors here because I had always claimed that the District Attorney belonged in the Hall of Justice, where he properly belonged, and every man in the District Attorney's office will tell you that he rightfully belongs in the Hall of Justice in place of five blocks away where he is at the present time, and every Supervisor here, outside of the new Supervisors, are very well versed with this bill because it has been before this Board of Supervisors for practically two years. I asked the Board of Supervisors when the bill was first brought before the Board, if they would allow me, as chairman of the Building and Lands Committee, to make some alterations in the Hall of Justice. I have spent $40,000 in the Hall of Justice, and I want any citizen in San Francisco to go down and inspect the improvements that have been made in that building, and they will come back praising your Building Committee for the work we have accomplished in that building. And I want to tell the members of the Board of Supervisors here this afternoon that your Building Committee will make more necessary repairs in the Hall of Justice, which is an old building, but I claim that I can make a very substantial building and plenty of room for the District Attorney and the Police Department in that building. I first insisted on the whole three departments, which was the District Attorney, the Public Defender and the Probation Officer, moving from 333 Kearny street. I first insisted, with one of my colleagues at that time, former Supervisor Byington, who had previously been a District Attorney in the City and County of San Francisco, who concurred with me right straight along on every move that was taken on that bill, that the District Attorney and the Probation Officer and the Public Defender belonged in the Hall of Justice. The Board of Supervisors asked me if I would go down and compromise with the owner of that building and allow two departments to stay at 333 Kearny street, the Public Defender, who has about eight employees in his department, and the Probation Officer, who has about fourteen employees in his department. I studied the bill over and went down and met the property

owner on two or three different occasions. I asked him how many feet of floor space the District Attorney was using at that time, the Public Defender and the Probation Officer, and before he had a death in his family we were almost up to an agreement two months ago. When that occurred I let the bill go along. There was only a few dollars separating us at that time and within the last two weeks I have communications here from the attorney of the owner of the building, representing him, and the Public Defender and the Probation Officer will need some 3000 odd feet of floor space. I agreed on the 21 cents per square foot for that floor space, which amounts to six hundred and some odd dollars. We are now paying $1,100 rent for the space and when the District Attorney moves out the City and County of San Francisco will be saving five hundred and some odd dollars per month. And there is plenty of room, which every Supervisor knows. I have always claimed that there is plenty of room in the Hall of Justice for all of the departments. I was willing to compromise this bill and allow two departments to stay at 333 Kearny street. I have made—well, I do not know just offhand how many more square feet for the Police Department, but they are now occupying that space down there, and your Building Committee is being commended by the Police Department for the wonderful job which went on there. The photograph gallery on the roof and the two lightwells, I had two rooms constructed there. And I know that every Supervisor that heard this bill argued in this Board of Supervisors for practically two years, and from a financial standpoint the City and County of San Francisco will save over $500 a month, and the District Attorney does belong in the Hall of Justice. Any attorney in San Francisco will tell you that. All the employees in the District Attorney's office will tell you that. He belongs in the Hall of Justice, and the floor space is waiting for him. Your Building Committee will clean up those rooms and put them into better shape than ever they were since the building has been constructed. It is immaterial to me whether the Board turns me down on this vote, but I want to say that I have been consistently right on this bill from the first day that I objected to it. I always knew that the District Attorney belonged in the Hall of Justice, and I knew that he should never have been moved out of the Hall of Justice, and the City and County of San Francisco on this lost over $500 a month. And the rooms are waiting for the District Attorney to move in. As soon as I get the sanction of this Board, which takes ninety days after we pass it before he can move back, I will have the rooms cleaned up for him in the Hall of Justice, and he will have a far better place than he now has at 333 Kearny street, because the men who are working for him have told me that the elevator service is very bad because they have to go to their offices in the night time and they have to walk five or six flights of stairs, when there is no elevator running. I have been told that right straight from the men who are working there. And I would like to see the Board of Supervisors get this behind them this afternoon so this controversy will not be coming up in the Board of Supervisors month in and month out.

* * * * *

Supervisor Shannon: This was put on our calendar as a recommendation of the Public Buildings and Land Committee, and it is not the recommendation of that committee and there is nothing in that communication or any of those communications to show that this owner is ready or willing, and by communication has offered or agreed to any reduction. And I move that the matter go over two weeks. Personally, I want to go down to the Hall of Justice and make an inspection and see just exactly what has been done down there and see if the space that has been built in there by the committee is sufficient to acommodate the several departments that are supposed to go down there.

Motion.

I move a continuance for two weeks.

Supervisor Hayden: Second the motion.

* * * * *

Supervisor Suhr: I just explained to you I did not sign the report, and I will vote that it go back to committee in order that we have it explained. I did not sign the report.

Supervisor Hayden: Therefore it is not a majority report. I rise to a point of order. My point of order is, unless a recommendation of the committee is here, agreed to

by a majority of the committee, it is not properly before the Board, that is my point of order.

* * * * *

Supervisor Suhr: I did concur in the chairman of the Building Committee's report until the owner of the building made the request that the matter go over that he could come before the committee.

* * * * *

I did not sign the report.

The Chairman: Then I have to sustain Supervisor Hayden's point of order. The whole matter is out of order.

Supervisor McSheehy: I will gladly second the motion made by Supervisor Powers, to-wit, that we cancel the lease at 333 Kearny street for the reasons, one——

Supervisor Hayden (interrupting): I rise to a point of order. You have sustained my point of order which takes this matter out of the Board's hands and it automatically goes back to the committee from which it originated.

* * * * *

The Chairman: Now we are on the report of the Building Committee.

Supervisor Gallagher: I wish to rise to a privileged question. As a member of the Board, exercising my privilege under the rules of the Board, I call out now out of the Building Committee the proposition relative to the lease of 333 Kearny street which has been pending there for more than thirty days, and I direct the Clerk to put it on the calendar, to cancel the lease.

Supervisor Hayden: That is properly in order.

Motion.

Supervisor Gallagher: I move you the cancellation of the lease.

Supervisor Powers: Second the motion.

* * * * *

Supervisor Shannon: I am not taking any exception to Mr. Gallagher's motion. I simply wanted to endeavor to conserve time that I moved postponement for two weeks and it is for the purpose of permitting me, and I dare say many other members of the Board who have not seen the Hall of Justice since it has been remodeled, a continuance of two weeks for the purpose of making an inspection.

* * * * *

The Chairman: The cancellation of the lease is before the house.

Supervisor Shannon: A motion to postpone can be considered.

Supervisor Gallagher: Have you made another one since I made it?

Supervisor Shannon: Yes.

The Chairman: Was Supervisor Shannon's motion to postpone for two weeks seconded?

Supervisor Hayden: Yes, I seconded it.

The Chairman: The question before the house is to postpone this matter on Supervisor Shannon's motion for two weeks.

* * * * *

The Chairman: Roll call. Read the motion before the house.

The Clerk: The question is on postponement for two weeks.

(Roll call).

Supervisor Colman, aye; Supervisor Deasy, aye; Supervisor Gallagher, no; Supervisor Havenner, no; Supervisor Hayden, aye; Supervisor Kent, no; Supervisor McGovern, no; Supervisor McSheehy, no; Supervisor Marks, no; Supervisor Powers, no; Supervisor Roncovieri, no; Supervisor Schmidt, aye; Supervisor Shannon, aye; Supervisor Stanton, no; Supervisor, Suhr, aye; Supervisor Todd, aye; Supervisor Toner, aye.

Supervisor Shannon: I desire to change my vote from aye to no and give notice of reconsideration at the next meeting.

Supervisor McSheehy: I rise to a point of order and my point of order is that the motion to reconsider this vote is out of order, Mr. Chairman, and it has been so decided by our City Attorney.

* * * * *

The Chairman: I am sorry I will have to rule Supervisor Shannon's motion out of order.

Supervisor Gallagher: The question is on the main motion.

* * * * *

Supervisor Gallagher: Put in the proper wording, that notice is hereby given and so forth.

Supervisor Kent: I would make an amendment, that the Clerk be directed to write a letter and register it to the owner, under date of tomorrow, that this Board will cancel the lease of 333 Kearny street, to take effect July 10, 1928.

Supervisor Gallagher: I will second that.

Supervisor Powers: I will second that.

The Chairman: You accept it as the original motion?

Supervisor Gallagher: Yes.

* * * * *

The Chairman: Roll call.

Supervisor Colman, no; Supervisor Deasy, no; Supervisor Gallagher, aye; Supervisor Havenner,

Aye; Supervisor Hayden, no; Supervisor Kent, aye; Supervisor McGovern, aye; Supervisor McSheehy, aye; Supervisor Marks, aye; Supervisor Powers, aye; Supervisor Ronovieri, aye; Supervisor Schmidt, aye; Supervisor Shannon, no; Supervisor Stanton, aye; Supervisor Suhr, no; Supervisor Todd, no; Supervisor Toner, no.

Notice of Reconsideration.

Supervisor Shannon: Mr. Chairman, I desire to change my vote from no to aye, and give notice of reconsideration.

The Chairman: Such will be the order.

Committee Chairmen.

Supervisor McSheehy requested that Supervisor Gallagher be authorized to act as chairman of the "Rules Committee," and Supervisor Hayden, chairman of the Auditorium Committee during his absence in Washington.

So ordered.

Gartland Anderson, Negro Dramatist.

Supervisor Hayden introduced and the Chair presented to the Board Mr. Gartland Anderson, a San Francisco negro damatist, who has met with singular success in New York with his drama "Appearances," which is now being produced in San Francisco and which has received the highest praise of our national dramatic critics.

Mr. Anderson responded to the encomiums of the Chair and Supervisor Hayden in a brief address. He invited all the members and their wives to be present at the Community Playhouse, Sutter and Mason streets, where "Appearances" is being presented. Acting Mayor Havenner to represent the City in case Mayor Rolph goes to Washington on bridge matters.

Letter of Thanks to San Mateo Board of Supervisors.

Supervisor Gallagher moved that the Clerk be directed to express the thanks of this Board to the Supervisors of San Mateo County for reversing action on the proposed Candlestick Point Bridge.

So ordered.

Induction Into Office.

Sylvester Andriano, attorney and resident of the North Beach section, was welcomed to the Board and given an enthusiastic ovation by friends and a cordial reception by members of the Board.

Supervisor Andriano was presented to the Board by Mayor Rolph, who made a brief announcement, stating that the appointment was for the remainder of the term of the late Supervisor John B. Badaracco, who began his second four-year term the first of the year.

His Honor the Mayor spoke of Andriano's career in San Francisco and his work as an attorney, expressing the opinion that the new Supervisor would not only "adequately take the place of the late Supervisor Badaracco, and represent that great North Beach dis-

trict, but will be a Supervisor for all the City, and become one of the best authorities on municipal affairs in the City."

The new member was escorted to his seat by a delegation of three members. The seat was surrounded by huge floral pieces and the desk heaped with letters and telegrams of congratulations.

Supervisor Andriano paid tribute to the memory of "Jack" Badaracco and expressed the hope that he himself would become as representative of the citizens of Italian descent as the late member. He declared that he had "everything to learn about the business affairs of the City, and that he was willing to be a hard student."

Supervisor Havenner said, in part:

"I wish to congratulate Mayor Rolph on his excellent selection in naming the new member of this Board."

Others who spoke were Supervisors Colman, Gallagher, Hayden, Shannon, Marks and Toner. Dr. Robert Grosso and Assemblyman Charles A. Oliva also joined in the tributes to the new Supervisor.

At the afternoon session of the Board Supervisor Andriano was appointed chairman of the Police Committee, recently made vacant by the transfer of Supervisor Schmidt to head the Supplies Committee. Supervisor Andriano also will serve on the Public Health and Civil Service committees.

Motion.

Supervisor Marks moved that the remarks and proceedings be transcribed and a bound copy forwarded to Supervisor Andriano.

Motion *carried.*

Whereupon, Supervisor Andriano was declared duly inducted in the office of Supervisor of the City and County of San Francisco.

Memorial, the Late William Kent.

On motion of Supervisor Shannon, unanimously adopted by rising vote, the following was *ordered printed in the Journal of Proceedings*:

William Kent, former member of Congress from the Second District of California, a resident of Marin County, passed away on March 13, 1928, at his home.

The Board of Supervisors, representing the people of San Francisco, here records that this city is under deepest obligation to William Kent for his great aid in procuring from Congress the grant of the Hetch Hetchy permit. He labored unselfishly and indefatigably to bring about the passage of the legislation. In this and in many other civic matters William Kent displayed an unwavering fealty to the cause of humanity whenever and wherever he had an opportunity to serve.

His life was characterized by unselfishness, generosity and the highest patriotism.

The City of San Francisco has lost a genuine friend and the people of California have lost a noble citizen.
